## TUMS School of Dentistry

When Dar-ul-Funun was founded in 1894, dentistry was taught as a sub-branch of medicine at the same school. After the establishment of University of Tehran in 1934, dentistry separated as an independent school. TUMS School of Dentistry is the foremost dental center in Iran with an international reputation of scholarly activities in both clinical and biological sciences. According to the national ranking, TUMS School of Dentistry is the first school out of the 45 dental schools of the country. Our School is a professional education of high-quality standards.

Since the language of doctor-patient interaction is Persian, our undergraduate programs are offered in Persian. As such, all those admitted to our undergraduate programs need to come to Iran at least one semester prior to the start of their program for participation in Persian language courses. Please note that all postgraduate programs are offered in English.

### Postgraduate Programs

There are various short and long-term postgraduate courses for national and international students.

TEHRAN UNIVERSITY  
MEDICAL SCIENCES

## TUMS School of Medicine

In 1899, the first modern class of medicine at Dar-ul-Funun School was founded, and the pioneering graduates started the practice of modern medicine in 1895, in 1918 (Dar-ul-Funun Medicine and Medicine of II). Now, it has 4 clinical science faculties affiliated with around 8,000 and medical staff of more than 100 international scientists, fellowships, B.Sc., M.P.H. Faculty members are highly qualified in terms of their transferable skills.

The School is committed to innovation in education, research, excellence, ethics and integrity, and comprehensive clinical services, specifically in the most challenging clinical areas.

TEHRAN UNIVERSITY

## TUMS School of Nursing and Midwifery

The School of Nursing and Midwifery is proud of its more than seventy-year history of education and pioneering position in research. Established in 1936, the School has always been one of the required schools nationally and internationally.

With more than 1,421 undergraduate and graduate nursing and midwifery students, 83 faculty members and ten chairs at all levels, the influence of the School is virtually all national and regional nursing and midwifery events is undeniable.

The nursing education program in the School was initiated as a two-year hospital-based Diploma and then a three-year Bachelor's degree in Nursing. However, it developed steadily over the years and resulted in a wide range of undergraduate and graduate programs we offer today. History of this steady improvement is as follows: Bachelor of Science degree (1964), Master's degree in Nursing (1978), M.Sc. in Midwifery (1988),

M.Sc. in Anesthesia (1989), Ph.D. in Nursing (1999), Joint Program of Ph.D. in Nursing with Karolinska Institute of Sweden (2004), Ph.D. in Reproductive Health (2004), Continuing Education in Nursing and Midwifery (2007), Critical Care Nursing (Adult) (2008), NICU (2009), and Geriatric Nursing (2011). We aim to discover, disseminate and apply new knowledge through undergraduates, graduates, and professional programs of excellent quality and within a vibrant and supportive learning and research environment.

School of Nursing and Midwifery is the oldest and biggest nursing school in the country with diverse specialized departments. It is known as the pioneer in the four pillars of nursing education: research, management and practice. It is also involved in national-level policy making and activities. Being involved in international activities (international students, collaboration, research projects) are also part of its policy.

## TUMS School of Nutritional Sciences and Dietetics

The Department of Nutrition and Biochemistry and the Department of Health Sciences and Nutrition of the School of Public Health were merged to form the Graduate School of Nutritional Sciences and Dietetics in 2010, with three departments, namely, Community Nutrition, Clinical Nutrition, and Cellular and Molecular Nutrition. The Graduate School has 23 full-time faculty members. It follows goals such as capacity building and professional training in various areas of nutrition and dietetics, expanding nutritional knowledge and culture, safeguarding national and international nutrition policies and its spiritual heritage, and providing a focus for scientific collaboration with individuals, as well as national and international governmental and non-governmental organizations.

It is the only school in Iran and in the region that covers nutrition areas of education, research, and training from "Cell to Society" at all three levels of disease prevention. It has highly trained faculty members educated in Europe and USA, with 4 holding M.D.

## TUMS School of Advanced Technologies in Medicine

The School of Advanced Technologies in Medicine was established in 2008 as a graduate academic center to educate talented students at M.Sc. and Ph.D. levels. This School also offers post-doctoral programs, fellowships, and short-term courses. The School of Advanced Technologies in Medicine seeks forward to establishing mutually interested collaborations with well-known academics and research centers throughout the world. The School accepts students in the post-graduate studies level. The curriculum is hoped to fill the gap between university and industry in medical services.

The fields of study offered by this School provide us with various career opportunities. Our curriculum is designed in a way that it enables students to step into professional careers with significantly high levels of theoretical knowledge and practical abilities. Upon graduation, you can find jobs in high-tech companies specializing in technologies of medicine, you have the opportunity

to pursue a career of teaching in top universities, or maybe start your own business in related fields.

## TUMS School of Public Health

The School of Public Health and the Institute of Public Health Research are the oldest and largest centers of health studies in Iran, being the first in the country to train specialists in a wide variety of disciplines since 1966. Since then, the school of Public Health (SPH) and the Institute of Public Health Research (IPHR) have been carrying out educational and research programs, with the aim of developing specialist manpower in the field of public health and also addressing health difficulties, especially environmental health problems. What follows is detailed research and educational programs, currently offered at all departments of the School of Public Health, with the hope to be able to initiate and carry out other research and education in the country and the world. Through the exchange of collaboration that the role of engineering are nourished and the welfare of humankind.

Consequently, we wish to emphasize our willingness and readiness to participate in the exchange of scientists and students, as well as in joint and collaborative research programs with other educational and research centers. Scientists in universities around the world and Iran are alumni of TUMS School of Public Health. Faculty members of this School have close relations and cooperation with international organizations such as WHO. Some are also consultants in these organizations. Students are studying in 14 programs in postgraduate level (M.Sc. and Ph.D.). The School of Public Health

## TUMS School of Pharmacy

When University of Tehran was established in 1934, the pharmacy program was managed by the School of Medicine. At that time, the pharmacy program lasted for 3 years and

academic members and staff (full professors, associate professors, assistant professors, lecturers, technicians, and 1,200 students), is one of the most dynamic and well-equipped instructional and research academic centers in Iran.

At the undergraduate level, the School of Pharmacy accepts international students in Pharm.D. (Doctor of Pharmacy).

No. 23, Daneshgah St., Val-e Afsar Ave., Tehran, 1418753955, Iran.

## TUMS School of Traditional Medicine

School of Traditional Medicine was established in 2002, as a result of the increasing interest and the national need in traditional, alternative, and complementary medical sciences. This School, as the oldest and most distinguished school of traditional medicine in Iran, is the postgraduate academic center for educating talented students at Ph.D. level in traditional medicine and pharmacy of traditional medicine.

The total number of students is more than 100 up to the present and the first group to be awarded the degree of Ph.D. was in 2012.

The School consists of five buildings, three of which are carefully designed with modern facilities for the students and faculty members. It also has 5 clinical centers, two educational campuses, and two modern research centers.

This School is the first and most distinguished school of traditional medicine in the region. During your study here, you can get high-level experience in both fields of clinical practice and research.

### Educational Departments

The School of Traditional Medicine develops both academically and practically, traditional Iranian medicine in the country and around the world. To this aim, the School's curriculum provides the students with the opportunity to promote their skills both in theory and practice in different fields of clinical traditional medicine as well as nutrition, material medicine, and pharmacy.

The specific objectives of this School is for students to gain an understanding of how to combine traditional medicine with current medicine, and to become a specialist, a broad-minded and ethical individual.

This School accepts students with an M.D. or a Pharm.D. into Ph.D. programs. The curriculum also hopes to be the gap between university and industry in the field of herbal medicine and traditional medicine.

## TUMS Virtual School

Established in 2010, TUMS Virtual School is called the scientific pivot of E-Learning in medical sciences in Iran. It was also called the Center of Excellence for E-Learning in Medical Education in 2011, and is going to be the Center of Excellence in E-Learning in the Middle East in the near future.

The awards and nominations received by the Virtual School of Tehran University of Medical Sciences in 2012-2013 are the National Educational Scholarship Award by the University Virtual Clinical Research site (SAMMA2) and the first national rank in Electronic Health Festival by CME. In addition, faculty members of this school have received more than 9 national educational awards in Mostafav National Educational Scholarship Festival in the field of E-learning in medical education.

A positive, responsive, and respectful online school culture is not shaped in isolation but arises as all teaching and administrative staff focus on achieving the three goals set by the Virtual School

- To reach out to national and international students
- To be responsive to the educational and administrative needs of our students
- To support our students in order to boost their medical knowledge

- The main activities of the Virtual School include:
  - Providing E-majors in Master's and Ph.D. degrees
  - Developing and providing E-CME and E-CPD for users all over the country
  - Designing and providing degrees, certificates and diplomas in different blended short courses
  - Designing, developing, and providing E-learning educational aid for face-to-face courses
  - Designing and building a wide range of development programs and workshops for faculty members

#### Center of Academic Excellence and Scientific Breakthroughs

Tehran University of Medical Sciences is indisputably the best medical sciences university in Iran and surely one of the leading universities in the surrounding region. With 11 schools, 15 hospitals, more than 70 research centers, 1500 faculty members, and a total of 15000 students, we take pride in being one of the most active and productive universities in Iran and the region.

Each year, a great number of students enter TUMS with high hopes for pursuing an academic career in medical fields, and numerous highly-trained, highly-knowledgeable individuals graduate from this university to join the professional communities in Iran and around the world in order to contribute to the betterment of humankind.

Join the TUMS family and move toward a brighter future!

Tehran University of Medical Sciences (TUMS) is accredited with  
 Premier status by the Accreditation Service for International  
 Colleges (ASIC). ASIC is recognized by the United Kingdom  
 Department for Education and Skills (DfES), the United Kingdom  
 Office for Standards in Education (Ofsted), the United Kingdom  
 Border and Immigration Agency (Home Office), and the United Kingdom  
 Office for Standards in Education (Ofsted). ASIC is a member of the Council  
 for Higher Education Accreditation (CHEA) International Quality Group  
 (IQG).

## About TUMS

The first modern center for medical training in Iran was founded in 1851. It was a part of the institute for Higher Education (Dar-ol-Fonoon). The School of Medicine was established as a part of the University of Tehran in 1934. After the Islamic Revolution, medical and associated departments were separated from the Ministry of Higher Education and were taken under the jurisdiction of the Ministry of Health, Treatment, and Medical Education. Since 1986, all the medical and associated schools of University of Tehran have carried on their activities independently as Tehran University of Medical Sciences and Health Service (TUMS).

TUMS is the oldest and the most well-known medical center in the I.R. of IRAN nationally as well as internationally. TUMS is one of the country's top research universities, accepts applications from the most qualified students, has the largest Medical, Dental, Pharmacy, Rehabilitation, Allied Medical Sciences, Public Health, Nursing and Midwifery schools in Iran, as well as over 100 specialized research centers such as Science and Technology in Medicine, Rheumatology, Auditory, Digestive Disease, Skin Diseases and Leprosy, Trauma, Hematology and Oncology, Cardiovascular Diseases, Endocrinology and Metabolism, Reproductive Health, Urology, Immunology, and Asthma and Allergy.

TUMS has many teaching hospitals: Imam, Sina, Shariati, Vali-e-Asr, AmirAlam, Ziaeiyan, and Baharloo are general and referral hospitals; Tebi-koddakan and Bahrami hospitals are TUMS pediatric centers; Farabi hospital is a special center for ophthalmology; Razi hospital is devoted to dermatology; Roozbeh hospital is the center for psychiatry; Arash and Mirza are special hospitals for gynecology, obstetrics, and infertility; and Meraj institute is the referral point for cancer diseases. TUMS has more than 40 libraries in its Schools, Research Centers, and Hospital with the Central Library located in Hemmat Campus; in addition, TUMS has excellent sports facilities for academics and students. These factors, along with the abilities and drive of its specialists, have made TUMS an important center with a high reputation in the region and Central Asia.

TUMS is a large university. One of the many advantages of its size is that it can offer a wide range of courses. Admission to TUMS is granted without regard to age, race, color, religion, gender, handicap, or national origin. TUMS admits by field of study and degree, and when you apply, you must indicate your interest in a school and degree. Residency and Fellowship programs are also offered to international students. Study at TUMS is based on a semester schedule. The fall semester begins in September and ends in January. The spring semester begins in February and ends in June. All international students will be admitted to start at the beginning of each semester.

Tehran University of Medical Sciences (TUMS) is accredited with premier status by the Accreditation Service for International Colleges (ASIC). ASIC is recognized by the United Kingdom Department for Education and Skills (DfES), the United Kingdom Department for Universities, Innovation, and Skills (DUIS), the United Kingdom Border and Immigration Agency (Home Office), the United Kingdom Office for Standards in Education (Ofsted). ASIC is a member of Council for Higher Education Accreditation (CHEA) International Quality Group (CIQG).

Our mission is to educate students at all levels and all disciplines of the medical sciences in accordance with the highest educational standards. We prepare future medical doctors, dentists, pharmacists, and health scientists for work in diverse communities. Our vision is to become an internationally recognized university which recruits an international student body as well as professors and researchers.

## TUMS Schools & Departments

### School of Medicine

#### Basic Departments:

- Anatomy
- Biochemistry
- Genetics
- Immunology and Biology
- Medical Education
- Medical Ethics
- Medical Physics and Biomedical Engineering
- Microbiology
- Parasitology
- Pharmacology
- Physiology
- Virology

#### Clinical Departments:

- Anesthesiology
- Cardiology
- Community Medicine
- Dermatology
- Emergency Medicine
- ENT
- Forensic Medicine
- General Surgery
- Geriatrics
- Infectious Disease Medicine
- Internal Medicine
- Neurology
- Neurosurgery
- Nuclear Medicine
- Obstetrics and Gynecology
- Occupational Medicine
- Ophthalmology
- Orthopedics
- Pathology
- Pediatrics
- Plastic and Reconstructive Surgery
- Psychiatry
- Radiology
- Radiotherapy
- Sports Medicine
- Urology

### School of Dentistry

- Community Oral Health
- Dental Laboratory Technology
- Dental Bio Materials
- Endodontics
- Dental Implant
- Laser
- Oral and Maxillofacial Medicine
- Oral and Maxillofacial Pathology
- Oral and Maxillofacial Radiology
- Orthodontics
- Pediatric Dentistry
- Periodontics
- Prosthodontics
- Oral and Maxillofacial Radiology
- Restorative Dentistry

### School of Pharmacy

- Biomaterial & Nanotechnology
- Clinical Pharmacy
- Food and Drug Control
- Management & Pharmacoecconomy
- Medicinal Chemistry
- Pharmaceutical Biotechnology
- Pharmaceutics
- Pharmacognosy
- Pharmacology & Toxicology
- Radiopharmacy

### School of Nursing & Midwifery

- Medical Surgical Nursing
- Community Health Nursing
- Psychiatric Nursing
- Pediatric Nursing
- Nursing Management
- Obstetrics and Gynecology
- Mother and Child Health
- Reproductive Health NICU
- Critical Care Nursing (Adult)
- Geriatric Nursing

### School of Advanced Medical Technologies

- Medical Information
- Molecular Medicine
- Tissue Engineering
- Medical Nanotechnology
- Neurosciences & Addiction Studies
- Applied Cell Sciences
- Medical Biotechnologies

### Graduate Admissions

A graduate applicant is a student who has already completed and obtained the Bachelor's university degree and wishes to pursue his or her education beyond that. For further information, please visit our website:

[www.gsla.tums.ac.ir](http://www.gsla.tums.ac.ir)

To apply for the graduate level, filling in the online application form and uploading the high-quality scan of the following documents are required:

1. A letter of application in connection in which you clearly specify your major and level of interest toward the new website
2. A Diploma in CV
3. The previous degree(s) in original PDF condition should provide both their Bachelor's and Master's (or equivalent school degrees such as M.Sc., etc.) title, certificate number provided both their B.Sc. and High School Diploma (or any other school degree such as M.B.B.S., etc.) along with the complete transcript of the records for all degree obtained (GPA of 1 and above is required)
4. English proficiency IELTS or TOEFL (either Cambridge from TUMS, a certificate of IELTS with a minimum score of 7.5 or equivalent is required. If you do not have an IELTS or TOEFL score, you can complete and upload the Affidavit of English Proficiency Form.
5. Clear letters of recommendation
6. A passport-size photograph
7. A copy of passport's main page

### Notes

- All your documents need to be original or else the copies should be proved same as original by the head of Certification/Issuance authority. For the documents which are not issued in Iran (e.g. IELTS or TOEFL), the English/Farsi translation that is approved by a sworn public should also be attached to the original documents. Our admission committee will review your documents and will notify you of the final decision.
- When you are accepted into TUMS, we will advise you to provide your visa application. After you receive your visa and permission you should be here, please inform us of your arrival date at least 10 days in advance by forwarding a copy of your ticket to us.
- If you provide a copy of your online ticket, we will push you up from the airport at Tehran and transfer you to your place of living.
- TUMS offers its selected international students an accommodation which is furnished with bed, with basic kitchen appliances, microwave oven, refrigerator, washing machine, TV, and wireless internet.
- At TUMS, the 24-hour reception starts at 9:00 a.m. and the closing service starts at 10:00 p.m. The maximum stay is 9 months, and students are usually off in the summer.

## Student Dress Code

www.gsia.tums.ac.ir

TEHRAN UNIVERSITY OF MEDICAL SCIENCES (TUMS)  
Office of Vice-Chancellor for Global Strategies and International Affairs  
Directorate of International Affairs and Development

### Student Dress Code

- Professionalism is reflected by the appearance and manner of behavior. The purpose of this dress code is to uphold the professional image of the University and our Islamic country.
- All students are expected to abide by common practice of modesty, cleanliness, and neatness. They should dress in a respectful manner within the acceptable standards of the community and culture.
- Following Islamic rules, observing Hijab or Islamic dress code is necessary while in Iran:
  - Women's hair must be covered with an appropriate scarf or covering while in public.
  - Body should be covered with loose clothes.
  - Arms should not be bare, and legs should be covered down to ankles.
- Any clothing, jewelry, or accessories that may be considered obscene or offensive cannot be worn.
- All clothing must be clean and neat and should project a well-groomed appearance.

### HEADLINES

- Dr. Najia Tariq, Islamic Republic of Afghanistan's Deputy Minister of Public Health, visited the TUMS Cancer Institute at Imam Khomeini Hospital.
- Lee Hammond, CEO at Accreditation Service for International Colleges (ASIC), met with Dr. Arabkheradmand, TUMS VC for Global Strategies and International Affairs, and members of the Directorate of International Relations, Accreditation and Ranking.
- Dr. Arabkheradmand, TUMS VC for Global Strategies and International Affairs, met with Dr. Rolf M. Zinkernagel, Professor of Experimental Immunology at the University of Zurich and the winner the Nobel Prize in Physiology or Medicine in 1996.
- TUMS has been approved as one of the 13 new BEME International Collaborating Centers (BICCs).
- TUMS and Kuwait University initiated academic cooperation following a visit to TUMS by Prof. Abdellatif Ahmad Al-Bader, President of Kuwait University.
- Tehran University of Medical Sciences and Nicolaus Copernicus University of Poland begin academic collaboration upon the signing of an agreement between TUMS School of Public Health and the Faculty of Biology and Environmental Protection at Nicolaus Copernicus University.
- Professor Ural Akbulut, Coordinator of University Ranking by Academic Performance (URAP) Research Laboratory, joins the TUMS Ranking Advisory Board following an invitation from TUMS Directorate of International Relations, Accreditation and Ranking.

### UPCOMING EVENTS

- TUMS is going to hold a graduation ceremony scheduled for Tuesday, May 27, 2014, and it will host approximately 6,000 students and guests.
- TUMS has a stall in University of Tehran's international exhibition, scheduled for May 24-26, 2014. Our experts will be more than delighted to answer all your inquiries.
- TUMS is going to hold a ceremony to award the winners of the 1st TUMS Photography Contest for International Students with their prizes. Moreover, many of the submitted photographs will be put on public display during this event. Details regarding time and venue of the event will be announced soon.

### TEHRAN, THE CAPITAL OF IRAN

Tehran, ranked 29th in the world by its metropolitan population, is the capital of Iran and home to Tehran University of Medical Sciences. An interesting mixture of traditionalism and modernity, this city provides the experience of a unique lifestyle to its citizens.

Iran's capital is also its academic and scientific center. Housing some of the most prominent universities of Iran and numerous libraries and highly equipped research centers, each and every year, Tehran attracts a great number of scholars and students.

Moreover, this city has some of the well-known tourist attractions of the country, among which Azadi (Liberty) Tower and Milad Tower may be more notable. Also, dining and shopping opportunities are endless. Visitor will have a great time staying in Tehran and will definitely take away many memories.

## THE TUMS BRIEF

April-May 2014

### 1<sup>ST</sup> TUMS PHOTOGRAPHY CONTEST FOR INTERNATIONAL STUDENTS

Tehran University of Medical Sciences held its first photography contest for international students this year. The contest, which started on March 15 and ended on April 30, was welcomed by TUMS international students and received many photos.

Here are the winners of the 1st TUMS Photography Contest for International Students.

1<sup>st</sup> Place: Muhammad Erraza Warka

2<sup>nd</sup> Place: Ashraf Semi Madhoush Shabbir

3<sup>rd</sup> Place: Kabir Majidi Hamid

### TUMS PROGRAMS SPOTLIGHT

To all interested applicants, TUMS accepts qualified and interested applicants in the following programs:

Doctor of Medicine (M.D.)  
September 2014

Admission: Open all year round  
Deadline: July 31, 2014  
Course Starts in: September 2014

Doctor of Dental Surgery (D.D.S.)  
2105-2016 Academic Year

Admission: Open all year round  
Deadline: November 30, 2014  
Course Starts in: January 2015

**TUMS is Accredited  
by ASIC (2013-2017)**

Tehran University of Medical Sciences (TUMS) is accredited with premier status by the Accreditation Service for International Colleges (ASIC). ASIC is recognized by the United Kingdom Department for Education and Skills (DfES), the United Kingdom Department for Universities, Innovation, and Skills (DUIS), the United Kingdom Border and Immigration Agency (Home Office), and the United Kingdom Office for Standards in Education (Ofsted). ASIC is a member of the Council for Higher Education Accreditation (CHEA) International Quality Group (CIQG).

معاونت بین الملل

## THE TUMS BRIEF

May-June 2014

### HEADLINES

- TUMS held an integrated graduation ceremony for all of its students on May 27, 2014. Though rain poured and winds howled, TUMS students took their professional oath and celebrated their graduation with spectacular fireworks.
- TUMS ranked third, after the Scientific Information Database (SID) and University of Tehran, in the new web evaluation system of Iran's higher education centers and institutes. Ferdowsi University of Mashhad, Isfahan University of Medical Sciences, Sharif University of Technology, Shiraz University of Medical Sciences, Mashhad University of Medical Sciences, Isfahan University of Technology and Amirkabir University of Technology are ranked 4th to 10th, respectively.
- The 6th International Neurosurgical Congress, as a joint venture between Tehran University of Medical Sciences and Hanover University, was held on June 12-15. Presided over by renowned Professor Majid Samiee at Tehran's Milad Hospital, this conference witnessed the presence of key speakers and numerous scholars from various countries around the globe, including Germany, Switzerland, Austria, France, China etc.
- TUMS Chancellor, Dr. Jafarian, along with other high-ranking TUMS officials, participated in a mini FIFA World Cup group stage tournament at the university's Children's Hospital. During the tournament, a group of children currently admitted at the hospital played as Iran's national soccer team, while TUMS officials, along with staff members from the hospital and some of Iran's renowned former soccer players, played the parts of Nigeria, Argentina and Bosnia and Herzegovina.
- Professor Peter Labas, Dean of Medical Faculty at Comenius University, Slovakia visited TUMS School of Medicine and two hospitals of the university. His meeting with TUMS officials resulted in the signing of a Memorandum of Understanding with TUMS Children's Medical Hospital.
- Dr. Olivia N. Muchena, Zimbabwe's Minister of Higher and Tertiary Education, Science and Technology Development had a meeting with officials from the Office of Vice-Chancellor for Global Strategies and International Affairs. During this meeting, held in Esteghlal Hotel, both sides expressed interest in near future cross-country academic and scientific cooperation.

### RAMADAN

Ramadan is the ninth month in the Islamic (lunar) calendar and is considered as one of the holiest of times throughout the Islamic world.

Ramadan is a month of fasting, a practice which is obligatory for every adult Muslim (except those who may be exempted due to certain circumstances such as having an illness) during this period. In this month, people fast for almost a whole day, immediately after sunrise until and after sunset prayer time. Muslims must refrain from eating and drinking, as well as avoiding any sinful act such as swearing. Ramadan is known as a time of self-control, not only controlling one's appetite but also controlling one's behavior, thoughts, deeds etc.

The last day of Ramadan is known as Eid al-Fitr. On this day, fasting is forbidden, and Muslims are advised to visit their friends and relatives, hold festivities and enjoy their time after a month of fasting and observance.

## THE TUMS BRIEF

May-June 2014

### IRAN INTERNATIONAL SUMMER SCHOOL OF REPRODUCTIVE HEALTH, 2014

TUMS Student Scientific Research Center, IFMSA and IPHSA, in partnership with TUMS and the Iranian National Commission for UNESCO, have organized the Iran International Summer School of Reproductive Health 2014.

This academic course, which is to be held on 16-22 August, 2014, has been designed for undergraduate medical sciences students and has a thirty-participants limit.

Various social activities have been prepared besides the main educational program, including an optional trip to the historical city of Isfahan. Included in the registration price are meals, accommodation in a student guesthouse and various social programs.

Don't miss out on this great opportunity! Apply now!

### UNIVERSITY RANKING SYSTEMS

In today's world of higher education in which competition and improvement are constant trends, university ranking systems play a major part in determining the current and future state of this landscape. Each ranking system has different sets of criteria and focuses on various factors for putting universities together in a ranked order. They can be of great help to individuals who are looking for an academic destination, though one should be aware of each system's criteria and tendencies for ranking institutes of higher education. Three of the most prominent ranking systems are:

- Quacquarelli Symonds (QS)
- Times Higher Education (THE) Ranking System
- Academic Ranking of World Universities (ARWU)

### HEADLINES

• On June 25, TUMS officials met with WHO representative in Iran, Dr. Jihane Tawilah and WHO National Professional Officer, Shadrokh Sirous.

• Tehran University of Medical Sciences ranked 83rd in Times Higher Education Asia University Rankings. In addition to TUMS, Sharif University of Technology and Isfahan University of Technology appeared in the top 100 Asian universities.

• The biennial meeting of the GEMINI (Gastro-Esophageal Malignancies in North of Iran) research group was held on June 24 and 25. Hosted by the Digestive Diseases Research Institute (DDRI), the conference witnessed the presence of numerous scholars, including those from the United States, Brazil and Japan.

• TUMS expanded its international academic collaboration in a meeting with Professor Peter Labas, Dean of the Medical Faculty at Comenius University, Slovakia. On a visit to TUMS School of Dentistry, Professor Labas signed a Memorandum of Understanding with TUMS Schools of Dentistry and Medicine.

• As reported by TUMS Student Reporter, Emmanuel Adutwum, TUMS Men's Soccer Team started its practices on Monday, July 21, ahead of the annual university athletic Olympiad.

• TUMS Broadcast, the university's first official podcast, has been produced, with efforts from members of the Research, Marketing and Development Division, under the Directorate of International Affairs and Development, and it will soon be published on the GSIA website.

• TUMS has recently recruited a new International Marketing and Recruitment Agent in Jammu & Kashmir State, India.

### IRAN'S UNESCO WORLD HERITAGE SITES

Iran, as the birth and resting place of many old civilizations in the world, has a rich and intriguing history. Through the ages, various dynasties have come and gone, enormous palaces have been built and entire cities have been razed. This volatile past has resulted in Iran's having some of the most fascinating and diverse historical sites.

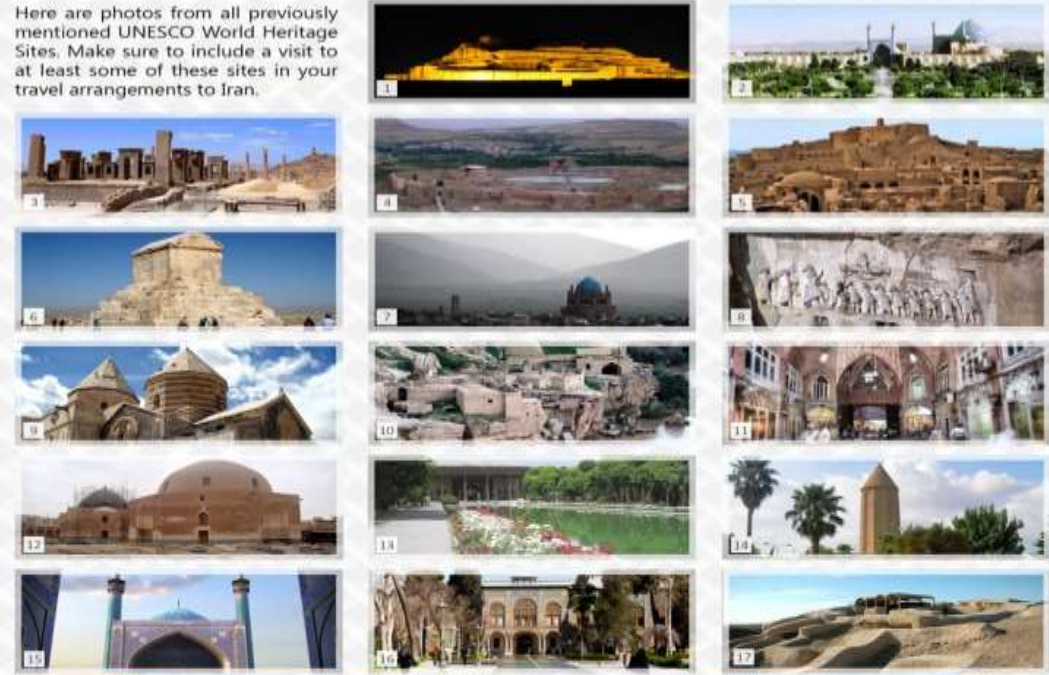

Thanks to its history, Iran is now the home to 17 UNESCO World Heritage Sites, which, given the summer holidays, currently witness the presence of numerous tourists, historians and other interested individuals. These 17 wonders of Iran's history are listed below, along with the year in which each of them was registered as a UNESCO World Heritage Site:

1. Tchogha Zanbil, Khuzestan (1979)
2. Naqsh-e Jahan Square, Isfahan (1979)
3. Persepolis, Fars (1979)
4. Takht-e Soleyman, West Azarbaijan (2003)
5. Bam and Its Cultural Landscape, Kerman (2004)
6. Pāsārgād, Fars (2004)
7. Soltaniyeh, Zanjan (2005)
8. Bisotun, Kermanshah (2006)
9. The Armenian Monastic Ensembles, West Azerbaijan (2008)
10. Shushtar, Historical Hydraulic System, Khuzestan (2009)
11. Tabriz Historic Bazar Complex, East Azarbaijan (2010)
12. Sheikh Safi al-Din Khanegah and Shrine Ensemble, Ardabil (2010)
13. The Persian Gardens (2011)
14. Gonbad-e Qabus, Golestan (2012)
15. Masjed-e Jamé, Isfahan (2012)
16. Golestan Palace, Tehran (2013)
17. Shahr-e Sukhteh, Sistan and Baluchestan, (2014)

### THE TUMS BRIEF

June-July 2014

Here are photos from all previously mentioned UNESCO World Heritage Sites. Make sure to include a visit to at least some of these sites in your travel arrangements to Iran.

### ADMISSIONS SPOTLIGHT

We are delighted to announce that TUMS accepts qualified and interested applicants in the following program:

Master of Public Health (M.P.H.)  
2014-2015 Academic Year

Admission: Open all year round  
Deadline: July 31, 2014  
Course Starts in: September 2014

TUMS offers two types of scholarships in the form of financial aids: Type C and Type B scholarships.

If you apply for, and are granted, the TUMS type C scholarship, the university provides you with:

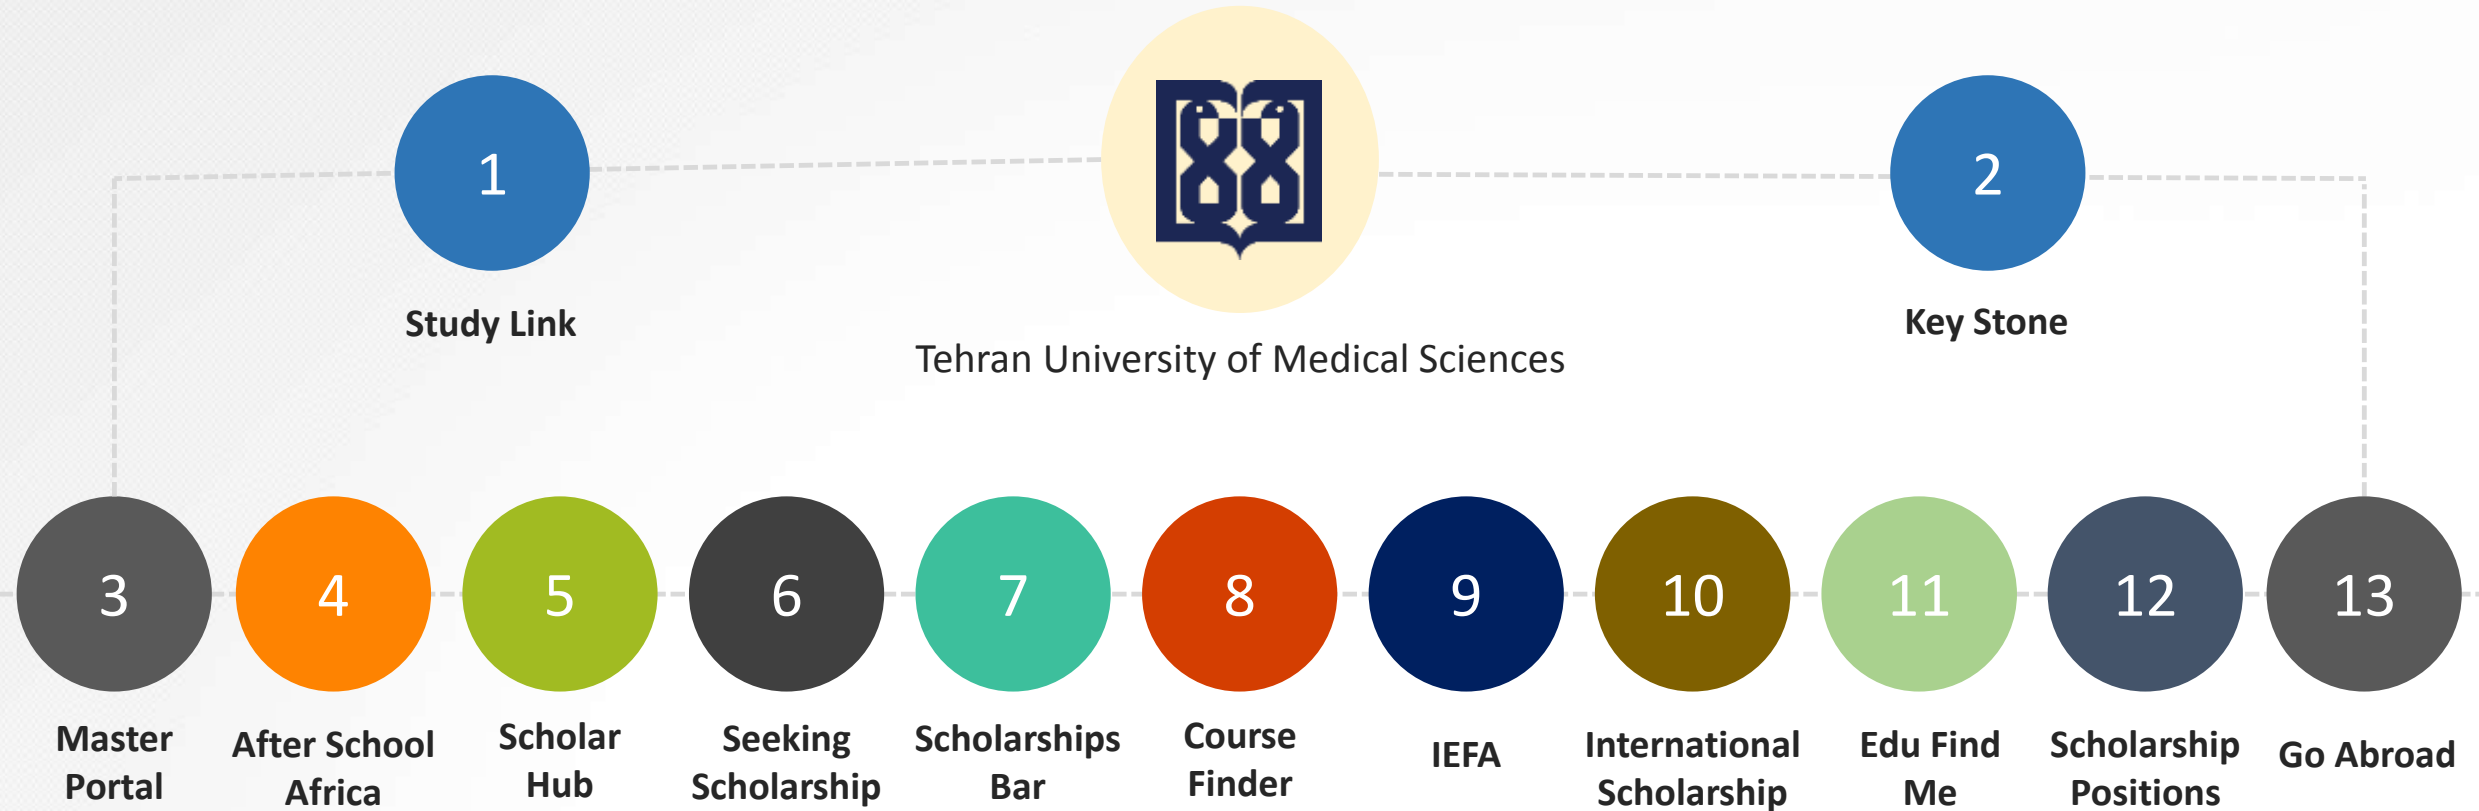

- free-of-charge registration,
- free first transport from airport in Tehran,
- free accommodation,
- free health & sport insurance,
- free Persian language classes for students who are interested to attend the classes or are obligated to learn Persian for their studies.

The above-mentioned facilities amount to a total of 3,925 USD which will be paid by the university.

The TUMS Type B Scholarship is a tuition-waiver scholarship. If you apply for, and are granted, the TUMS type B scholarship, you will be awarded a tuition-waiver scholarship (between 1% to 100%), as well as being provided with:

- free-of-charge registration,
- free first transport from airport in Tehran,
- free accommodation,
- free health & sport insurance,
- free Persian language classes for students who are interested to attend the classes or are obligated to learn Persian for their studies.

## M.Pharm. / Pharm.D

### Expiration

2018-10-22

### Program Summary

Take your knowledge of the preparation, sale, and/or use of medicinal drugs to another level through the M.Pharm./Pharm.D. programs offered by Tehran University of Medical Science.

Focus on a field in medical sciences designed to meet the pharmacy-related medical needs of society. You will study basic sciences for 2 years and then take specialized pharmacy courses. Choose between the 4 to 4.5-year M.Pharm. and the 5.5-year Pharm.D., which both develop your theoretical and practical skills.

The University's curriculum provides you with the opportunity to work in industrial and pharmaceutical companies, quality control laboratories, poison control centers, cosmetic companies, cellular pharmacology, herbal medicine, biotechnology research, and academia.

This program is provided by Tehran

## TUMS Visual Identity Standards

In today's world, in which a myriad of companies, organizations and institutes are active in various fields and professions, establishing and maintaining an identity is of the utmost importance; an identity so unique that speaks worlds about the organization or institute it represents.

Tehran University of Medical Sciences, as the most productive medical sciences university in Iran and a leading institute of higher education in Asia, has answered this requirement by creating its own set of standards regarding its visual identity at home and abroad.

It is highly crucial that we maintain these standards in each and every aspect of our activities and make sure that the TUMS visual identity becomes known throughout the international higher education landscape.

We have made it our mission to answer any and all needs regarding the TUMS visual identity in the world of higher education and, as we make progress and continue to push away the boundaries, we will develop and enhance our set of standards.

We advise you to strictly follow the rules and regulations concerning the university's visual identity as found on this website and in our related publications. In case of any inquiries, feel free to contact our Advertisement and Marketing Division and seek our experts' advice via [intl-qsia@tums.ac.ir](mailto:intl-qsia@tums.ac.ir). # TUMS Agency Contract

دانشگاه علوم پزشکی تهران  
معاونت بین الملل

Tehran University of Medical Sciences (TUMS)  
Office of Vice-Chancellor for Global Strategies and International Affairs

## Agency Contract on Recruiting International Students

Date introduced: July 1, 2013  
Date(s) modified: \_\_\_\_\_  
Next scheduled review date: July 1, 2014

### 1. Aim

The aim of this agreement is to recruit agents and representatives for recruiting students to **Tehran University of Medical Sciences in India.**

This agreement will be signed between **Tehran University of Medical Sciences and Meta Career & Education Services Pvt. Ltd.** with corporate identity number **U93000DL2013PTC249480** and with **Mr. Pawan Kumar** as the representative of the company's proprietors.

**NOTE: Tehran University of Medical Sciences is hereinafter referred to by its abbreviation; "TUMS"**

### 2. DEFINITIONS

**TUMS Official Agents (TOA)** – Representative of Agencies whose primary business is to recruit students to TUMS educational system where they will be authorized by TUMS to keep the deposit they collect from an applicant (as their commission) ONLY for a successful placement.

TUMS' Official Agents may have one or more offices overseas or in Iran. An education recruitment agent is engaged by TUMS on a One-year agreement to formally represent the University. TUMS Official Agents are supported by the University with marketing materials and other marketing supports. \*please see note below.

**Interim TUMS Agents (ITA)** – An education recruitment agent who has not been formally approved by TUMS to represent the University on a full One-year agreement but has signed an Interim agreement for applicants' profiles submitted to the University during a three-month trial period. Interim TUMS Agents will also be authorized by TUMS to keep the deposit they collect from an applicant (as their commission) ONLY for a successful placement.

Interim TUMS Agents are supported by the University with marketing materials (determined by the University), and possibility of other marketing supports will be evaluated on a case-by-case basis. \*please see note below.

**\*NOTE:** Before becoming a TUMS official Agent (TOA), Representatives and Agencies should begin their activities as Interim TUMS Agents (ITA) for a three-month trial period. The performance of Interim TUMS Agents (ITAs) will be evaluated by TUMS officials for approval/denial, and the possibility of becoming a TUMS Official Agent (TOA) may be discussed with the passed Interim TUMS Agents (ITAs). ("TUMS Official Agent" and "Interim TUMS Agent" hereinafter will be referred to as "TOA" and "ITA", respectively, with "TOAs" and "ITAs" as plural forms).
