About TUMS

The first modern center for medical training in Iran was founded in 1851. It was a part of the institute for Higher Education (Dar-ol-Fonoon). The School of Medicine was established as a part of the University of Tehran in 1934. After the Islamic Revolution, medical and associated departments were separated from the Ministry of Higher Education and were taken under the jurisdiction of the Ministry of Health, Treatment, and Medical Education. Since 1986, all the medical and associated schools of University of Tehran have carried on their activities independently as Tehran University of Medical Sciences and Health Service (TUMS).

TUMS is the oldest and the most well-known medical center in the I.R. of IRAN nationally as well as internationally. TUMS is one of the country's top research universities, accepts applications from the most qualified students, has the largest Medical, Dental, Pharmacy, Rehabilitation, Allied Medical Sciences, Public Health, Nursing and Midwifery schools in Iran, as well as over 100 specialized research centers such as Science and Technology in Medicine, Rheumatology, Auditory, Digestive Disease, Skin Diseases and Leprosy, Trauma, Hematology and Oncology, Cardiovascular Diseases, Endocrinology and Metabolism, Reproductive Health, Urology, Immunology, and Asthma and Allergy.

TUMS has many teaching hospitals: Imam, Sina, Shariati, Vali-e-asr, AmirAlam, Ziaelian, and Baharloo are general and referral hospitals; Tebi-koddakan and Bahrami hospitals are TUMS pediatric centers; Farabi hospital is a special center for ophthalmology; Razi hospital is devoted to dermatology; Roozbeh hospital is the center for psychiatry; Arash and Mirza are special hospitals for gynecology, obstetrics, and infertility; and Meraj institute is the referral point for cancer diseases. TUMS has more than 40 libraries in its Schools, Research Centers, and Hospital with the Central Library located in Hemmat Campus. In addition, TUMS has excellent sports facilities for academics and students. These factors, along with the abilities and drive of its specialists, have made TUMS an important center with a high reputation in the region and Central Asia.

TUMS is a large university. One of the many advantages of its size is that it can offer a wide range of courses. Admission to TUMS is granted without regard to age, race, color, religion, gender, handicap, or national origin. TUMS admits by field of study and degree, and when you apply, you must indicate your interest in a school and degree. Residency and Fellowship programs are also offered to international students. Study at TUMS is based on a semester schedule. The fall semester begins in September and ends in January. The spring semester begins in February and ends in June. All international students will be admitted to start at the beginning of each semester.

Tehran University of Medical Sciences (TUMS) is accredited with premier status by the Accreditation Service for International Colleges (ASIC). ASIC is recognized by the United Kingdom Department for Education and Skills (DfES), the United Kingdom Department for Universities, Innovation, and Skills (DUIS), the United Kingdom Border and Immigration Agency (Home Office), the United Kingdom Office for Standards in Education (Ofsted). ASIC is a member of Council for Higher Education Accreditation [CHEA] International Quality Group (ICQG).

Our mission is to educate students at all levels and all disciplines of the medical sciences in accordance with the highest educational standards. We prepare future medical doctors, dentists, pharmacists, and health scientists for work in diverse communities. Our vision is to become an internationally recognized university which recruits an international student body as well as professors and researchers.
TUMS Schools & Departments

School of Medicine
Basic Departments:
- Anatomy
- Biochemistry
- Genetics
- Immunology and Biology
- Medical Education
- Medical Ethics
- Medical Physics and Biomedical Engineering
- Microbiology
- Parasitology
- Pharmacology
- Physiology
- Virology

Clinical Departments:
- Anesthesiology
- Cardiology
- Community Medicine
- Dermatology
- Emergency Medicine
- ENT
- Forensic Medicine
- General Surgery
- Geriatrics
- Infectious Disease Medicine
- Internal Medicine
- Neurology
- Neurosurgery
- Nuclear Medicine
- Obstetrics and Gynecology
- Occupational Medicine
- Ophthalmology
- Orthopedics
- Pathology
- Pediatrics
- Plastic and Reconstructive Surgery
- Psychiatry
- Radiology
- Radiotherapy
- Sports Medicine
- Urology

School of Dentistry
- Community Oral Health
- Dental Laboratory Technology
- Dental Bio Materials
- Endodontics
- Dental Implant
- Laser
- Oral and Maxillofacial Medicine
- Oral and Maxillofacial Pathology
- Oral and Maxillofacial Radiology
- Oral and Maxillofacial Surgery
- Orthodontics
- Pediatric Dentistry
- Periodontics
- Prosthodontics
- Oral and Maxillofacial Radiology
- Restorative Dentistry

School of Pharmacy
- Biomedical & Nanotechnology
- Clinical Pharmacy
- Food and Drug Control
- Management & Pharmacoeconomy
- Medicinal Chemistry
- Pharmaceutical Biotechnology
- Pharmacuetics
- Pharmacognosy
- Pharmacology & Toxicology
- Radiopharmacy

School of Nursing & Midwifery
- Medical Surgical Nursing,
- Community Health Nursing
- Psychiatric Nursing
- Pediatric Nursing
- Nursing Management
- Obstetrics and Gynecology
- Mother and Child Health
- Reproductive Health NICU
- Critical Care Nursing (Adult)
- Geriatric Nursing

School of Advanced Medical Technologies
- Medical Information
- Molecular Medicine
- Tissue Engineering
- Medical Nanotechnology
- Neurosciences & Addiction Studies
- Applied Cell Sciences
- Medical Biotechnologies

School of Nutritional Sciences & Dietetics
- Cellular and Molecular Nutrition
- Clinical Nutrition
- Community Nutrition

School of Medical Management & Information
- Health Services Management
- Health Information Management
- Health Economics
- Medical Librarianship and Information Sciences
- Bio-Statistic & Mathematics

School of Allied Medical Sciences
- Medical Laboratory Sciences
- Health Information Management
- Health Care Services Management
- Hematology and Blood Transfusion
- Medical Biotechnology
- Anesthesia Technology, Operating Room, & Medical Emergencies
- Basic Sciences
- Librarianship & Medical Information
- Radiology and Radiotherapy
- Medical Informatics

School of Traditional Medicine
Basic Sciences:
- Pharmacy in Traditional Medicine
- History of Medical Sciences (History of Medicine)

Clinical Sciences:
- Traditional Medicine

School of Rehabilitation
- Audiology
- Occupational Therapy
- Orthotics & Prosthetics
- Optometry
- Physical Therapy
- Speech Therapy
- Rehabilitation Management

School of Public Health
- Epidemiology & Biostatistics
- Health Education and Promotion
- Medical Parasitology & Mycology
- Occupational Health D
- Disaster Public Health
- Pathobiology (Immunology, Bacteriology)
- Virology
- Medical Entomology & Vector Control
- Health Sciences Educational Development
- Health Management and Economics
- Environmental Health Engineering

Virtual School
- E-Learning in Medical Education
- Virtualization of Face to Face Program
- Electronic Health
TUMS Research Centers

- Dental Implant Research Center
- Cancer Research Center
- Oncopathology Research Center
- Center for Air Pollution Research (CAPR)
- Center for Educational Research in Medical Sciences
- Medical Ethics and History of Medicine Research Center
- Osteoporosis Research Center
- Iranian National Center for Addiction Studies
