Within this period, in addition to completing the educational courses, students have to choose a topic for their proposal, complete their thesis and eventually defend it.

The process from choosing the proposal topic to the thesis defense is as follows:

**Note:** Any delay in this matter will cause prolongation of the study period, and may lead to expulsion from the program.
Important Advice:

- Before preparing the proposal, students must check with the School Research Deputy Office to make sure that the subject has not been covered already; and also to ascertain that the supervisory candidate has not reached the maximum number of thesis that can supervise.

2- The students must obtain and complete the proposal form in accordance with the supervisor’s and advisors’ instructions, and then to submit it to the Research Council of the related department for review and initial approval.

IV- PROPOSAL APPROVAL

1- For final approval, the proposal has to be submitted to the Research Deputy Office for review and approval by either the Research Council or the Postgraduate Council.

2- Finally, a copy of the approved proposal and a letter of proposal approval have to be submitted to the Office of the Vice President for Research Affairs.

Note: Students may defend their thesis anytime after 6 months passed from the proposal approval (there must be a time lapse of at least 6 months between the proposal approval and thesis defense).
V- TO CARRY OUT THESIS

Monitoring Thesis Progress:

- The School Research Deputy Office and Office of the Vice President for Research Affairs monitor theses progress and demand progress reports from supervisors and students.

- Educational Affairs Office in the Office of the Vice President for Research Affairs, in addition to executing its educational matters, closely and carefully monitors the proposal/thesis stages (from the proposal registration to the defense).
