*Computer Sciences lecture is held at Dr. Meysami Office at Medical Embryology building (No. 4), 2nd floor, Department of Social Medicine of Medical.

It is essential that you know when and where your lectures, tutorials and laboratory sessions are being held.

Timetable clashes

If you are having a problem with your timetable because the units you selected are clashing, you might have to choose other units. If lecture and/or tutorial times coincide with other units, you can register a clash at the international office, located at the main campus of TUMS.

You can also contact the co-ordinator officers to find out about changing tutorial times. You need to do this before the second week of each semester.

If the situation is not resolved after talking to the unit co-ordinators, contact the relevant office. If the problem still cannot be solved, you may need to change your enrolment.
