Preparing for the Future of Nursing Informatics-

Questions - Comments

Questions to Consider

1. Discuss the value of monitoring to update competencies and practice.

2. How important is it to understand and use standards as foundation of practice? How will you implement in your practice?

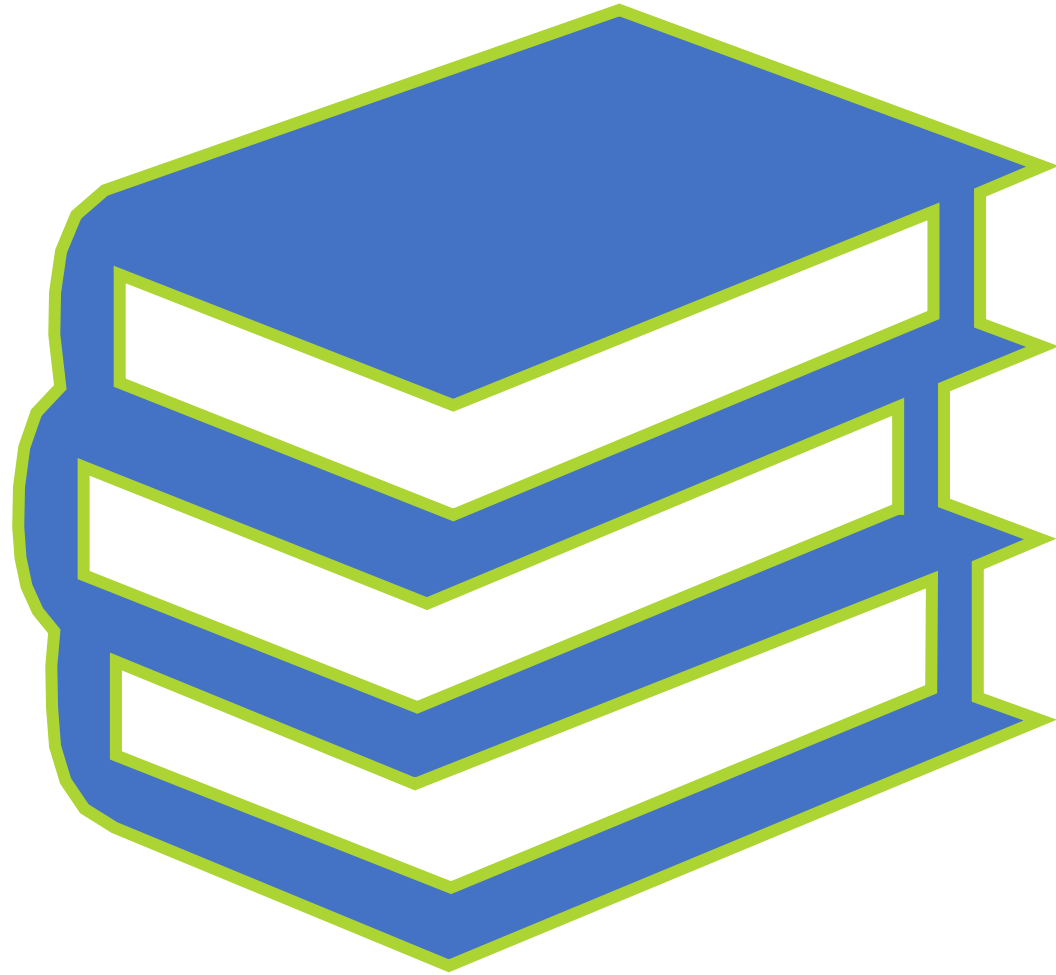

3. As AI continues to evolve, how will you employ the new project management concepts into practice?

4. Where would you introduce the new concepts?

5. What are your thoughts on the expanded and evolving practice roles and competencies of Informatics Nurses and Informatics Nurse Specialists?
