32nd International Congress on Pediatrics

Special Focus COVID-19

Nov. 2 – 6, 2020

Tehran- Iran

**In the name of Allah
the compassionate,
the merciful**

WELCOME

SEYED REZA RAEES-KARAMI
Head, Department of Pediatrics, TUMS
President, International Congress on Pediatrics

Dear Colleagues and Distinguished Professors,
As we approach the 32nd International Congress on Pediatrics, the Coronavirus pandemic has affected all current activities worldwide. Various scientific conferences and congresses have undergone fundamental changes as a result. On the one hand, due to the attention to current scientific issues, especially cases related to this disease, the need to hold a conference has doubled, and on the other hand, it is not possible to gather and hold face-to-face programs. Therefore, all those involved, planners and presenters of the program were scheduled to hold the 2020 congress virtually. Virtual holding provides the possibility of more attendance and more diverse programs to pay more attention to the international dimension of the congress than previous events. In the 32nd event, hopefully, at the same time as holding sessions in several halls in Persian

MESSAGE

language, as well as the 18th Congress on Child Nursing, the international programs of the Congress in separate hours and halls with the participation of speakers and guests from other countries will be held. Also in all sub-specialized fields, the subject of Coronavirus and its effects on different systems of the body of children will be studied.

In the end, I would like to express my special thanks to all the colleagues, especially the faculty members of the Pediatrics Department of Tehran University of Medical Sciences and the officials and professors of the Children's Medical Center who played a key role in planning and conducting the Congress.

REZA SHERVIN BADV

**President,
Children's Medical Center
Chair of Executive Committee,
International Congress on Pediatrics**

WELCOME

Dear colleagues,

In respect to the health and safety of all attendees, we decided to organize our annual pediatric congress as an interactive virtual symposium. This decision has been taken due to the COVID-19 pandemic situation and in support of all efforts to slow down the spread of the virus.

We must stay creative, positive and tuff more than ever to come over this crisis together. Accordingly, the Congress Board has decided to organize the 32nd pediatric Congress as Virtual Congress for Nov. 2-6, 2020 and offer to the pediatric medical community the possibility for continuous education, scientific updates, and best practice collaboration without customary physical gathering.

More details regarding the 2020 Virtual Congress and registration will be announced in due course. Please do not hesitate to contact us via email, website, or phone call in case of probable questions, offering new ideas or suggestions.

Best wishes for good health to you, your families, and your community.

MESSAGE

MAHMOUDREZA ASHRAFI

**Deputy Head for Research Affairs,
Department of Pediatrics, TUMS
Chair of Scientific Committee,
International Congress on Pediatrics**

With the help of God, the 32nd International Congress on Pediatrics will be held by Tehran University of Medical Sciences in November 2020.

Unfortunately, this year, due to the COVID-19 pandemic, we are not honored to meet our loved ones, and we plan to organize a virtual event, in order to discuss different topics on Pediatrics and exchange the experiences; so that once again, although in absentia, we can host all professors and colleagues from all over the world.

This year's international section of the Congress will be held in four days on Nov. 2nd to 6th, which includes 17 panels. One of the panels will specifically discuss Covid-19 pandemic.

I am grateful to all Scientific Committee members, Executive Committee and everyone keeping us motivated in this way. Special thanks to Vice Chancellery of Global Strategies and International Affairs of Tehran University of Medical Sciences.

EHSAN AQHAEI MOGHADDAM

**Deputy Head for International Affairs,
Department of Pediatrics, TUMS
Chair of International Committee,
International Congress on Pediatrics**

WELCOME

Dear Colleagues and Friends,

We are delighted to announce that the thirty second International congress on Pediatrics, will be held all in virtual fashion(webinars) from November 2 to 6, 2020 at the Children Medical Centre at Tehran University of Medical Sciences.

This Scientific congress will provide opportunities for thoughtful dialogues/debates, keynote presentations and networking opportunities for pediatricians.

The theme for this year's congress is: "science without borders"

MESSAGE

VAHID ZIAEE

Vice-Dean of Education,
TUMS International Campus
Vice-President,
International Congress on Pediatrics

We need to work together and learn from each other. This year's congress we have invited some of the most acknowledged international experts in the field of pediatric subspecialties as our key note lecturers to enrich our scientific program.

There will be a special focus on the COVID-19 pandemic this year.

We would like to express our thanks to our dedicated staff, colleagues, friends and families for their untiring help, support and advice in planning and arranging this Congress.

We hope that you will enjoy the Congress and that your interaction with your colleagues from many different countries will stimulate a creative exchange of ideas.

Mark your calendar and join us from 2nd to 6th November 2020.

TEHRAN UNIVERSITY
OF
MEDICAL SCIENCES

Tehran University of Medical Sciences

The first modern center of medical training in Iran was founded in 1851. It was a part of the Institute of Higher Education (Dar-ol-Fonoon).

The School of Medicine was established as a part of University of Tehran in 1934. After the Islamic Revolution, medical schools and departments associated with medical fields were separated from the Ministry of Higher Education and were taken under the administration of the Ministry of Health, Treatment, and Medical Education.

Since 1986, all those schools of University of Tehran which specialize in medical fields have carried on their activities independently as

S CIENCES

TUMS is the oldest and most well nationally as well as

TUMS, as one of the country's top research universities has the largest schools of advanced technologies in medicine, allied medical sciences, dentistry, medicine, nursing and midwifery, nutritional sciences and dietetics, persian medicine, pharmacy, public health, rehabilitation, and virtual school in Iran.

Over a hundred specialized research centers such as Science and Technology in Medicine, Rheumatology, Auditory, Digestive Disease, Skin Diseases and Leprosy, Trauma, Hematology and Oncology, Cardiovascular Diseases, Endocrinology and Metabolism, Reproductive Health, Urology, Immunology, and Asthma and Allergy are under the immediate supervision of this university.

-known medical center in Iran, internationally

TUMS has many teaching hospitals: Imam Khomeini, Sina, Shariati, Vali-e Asr, Amir Alam, Ziaian, and Baharloo are general and referral hospitals; Children's Medical Center and Bahrami Hospital are TUMS pediatric centers;

Farabi Hospital is a special center for ophthalmology; Razi Hospital is devoted to dermatology; Roozbeh Hospital is a center for psychiatry; Arash is a special hospital for gynecology, obstetrics and infertility. In addition, TUMS has excellent sports facilities for academics and students. These factors, along with the abilities and drive of its specialists, have made TUMS an important center with a notable reputation in the region and Central Asia.

Children's Me

This specialized pediatric hospital was founded in 1968 and thanks to Dr. Hassan Ahari, and Dr. Mohammad Qarib's efforts, has been called Dr. Ahari Hospital as a general pediatric center. Now the hospital consists of about 20 specialty and sub-specialty wards, including: emergency, EICU, infectious diseases, hematology, nephrology, hemodialysis, endocrinology, gastrointestinal disease, endoscopy, neonatology, NICU, PICU, immunology, rheumatology, neurology, psychiatry, cardiology, open heart ICU, CICU, respiratory disease, bone marrow transplant, surgery 1&2 and general, orthopedic, cardiac, ENT, neurosurgery & urology operation theaters. Also, we have a long list of fully equipped paraclinic departments like: radiology, CT scan & MRI, laboratory, physiotherapy, dentistry, round the clock pharmacy and many others. The hospital offers 420 registered bed capacity which 80 percent of them are well equipped. Children's Medical Center is one of the most experienced sub-specialized hospitals in the country and is supposed to offer high quality and specialized therapeutic services to neonates,

Medical Center

high quality and specialized therapeutic services to neonates, infants and children throughout country and region. Our team consists of 117 faculty members (63 of them are specialist and subspecialist in pediatric). We have 56 fellowships, 65 pediatric residents and about 150 interns of pediatrics, 200 medical students under training during a year. We believe that our ability to deliver the best health care is made possible through our team of highly trained, dedicated and committed professionals within our medical, nursing and clinical services here in children's medical center hospital. We also provide sub-specialty care for more than 1500 patients monthly.

This center was selected as the hub of excellence in pediatrics in 2008 by Ministry of Health and Medical Education. Our hospital services and facilities are open to all nationalities, irrespective of race, color and creed. We believe that our ability to deliver the best health care is made possible through our team of highly trained, dedicated and committed professionals within our medical, nursing and clinical services.

Day One

Monday,
November 2, 2020

Panel 1: Neurology

Panel 2: Hematology

Panel 3: Ill Child 01

Neurology Panel 1

Hall A

13:30 -15:30 GMT

17:00 - 19:00 Time in Tehran

Monday,
November 2

Prof. Gabriella Di Rosa

Department of Human Pathology of the Adult and Developmental Age "Gaetano Barresi", Unit of Child Neurology and Psychiatry, University of Messina, Messina 98125, Italy

Updated approach to status epilepticus

Prof. Suvasini Sharma

Neurology Division, Department of Pediatrics, Lady Hardinge Medical College and Kalawati Saran Children's Hospital, New Delhi, India

Pediatric Autoimmune encephalitis

Prof. Mahmoud Mohammadi

Full Prof. Of Neurology, Tehran University of Medical Sciences

How useful are homemade videos in diagnosis of epilepsy like disorders in children?

Dr. Sreeni Tekki-Rao

Department of Paediatrics Luton and Dunstable University Hospitals Foundation NHS Trust Luton, Bedfordshire, UK

Status epilepticus

Dr. Houman Homayoun

Department of Neuroscience, University of Pittsburgh, Pittsburgh, PA, USA

Update on pediatric movement disorders

Hematology Panel 2

Hall B

13:30 -15:30 GMT

17:00 – 19:00 Time in Tehran

Monday,
November 2

Dr. Khaled Ghanem

BASMA Pediatric Oncology Unit,
Damascus, Syria
Challenges of blood transfusions in β -
thalassemia

Prof. Miguel Abboud

Department of Pediatrics and Adolescent
Medicine, American University of Beirut
Medical Center, Beirut, Lebanon
Lecture Topic

Prof. Flora Peyvandi

Bianchi Bonomi Haemophilia and Thrombosis
Center, Fondazione IRCCS Ca' Granda Ospedale
Maggiore Policlinico, Università degli Studi di
Milano and Luigi Villa Foundation, Milan, Italy
Novel treatment in Hemophilia

Prof. Izaskun Elorza Álvarez

Pediatric Oncology and Hematology
Service, University Hospital Vall d'Hebron,
Barcelona, Spain.
Conventional schedule in pediatric Acute
Lymphoblastic Leukemia

Prof. Jorn Gerritsma

Pediatric Hematology, Amsterdam UMC, University of
Amsterdam, Emma Children's Hospital, Amsterdam,
Netherlands
Red blood cell alloimmunization in sickle cell disease

III Child 01

Panel 3

Hall B

15:45 -17:45 GMT

19:15 - 21:15 Time in Tehran

Monday,
November 2

Dr. Hadi Mohseni

Department of Critical Care Medicine, The Hospital for Sick Children, Toronto, Ontario, Canada.

Care of critically ill child in resource limited setting

Prof. Alireza Mani

UCL Division of Medicine

Oxygen saturation variability analysis: Lessons from interdisciplinary research

Prof. Shamiel Salie

Department of Critical Care Medicine, The Hospital for Sick Children, Toronto, Ontario, Canada.

Pediatric Traumatic Brain Injury

Day Two

Tuesday,
November 3, 2020

Panel 4: Genetics

Panel 5: Turkish Session

Panel 6: Infectious Diseases

Genetics

Panel 4

Hall A

13:30 - 17:30 GMT

17:00 - 21:00 Time in Tehran

Tuesday,
November 3

Prof. Daryl Armstrong Scott

Associate Professor, Department of Molecular and Human Genetics, Department of Molecular Physiology and Biophysics, Baylor College of Medicine, Houston, TX, USA

Genetic testing for individuals with structural birth defects

Prof. Olena Grechanina

Medical Genetics department, Kharkiv National Medical University

The "quiet" pandemic of hereditary psychoneurological disorders

Prof. Judy Savige

FRCP FRACP FRCPA PhD MSc MBA, The University of Melbourne, Department of Medicine, Parkville VIC, AUSTRALIA

Genetic causes of haematuria in children

Prof. Roberto Giugliani

Department of Genetics, Federal University of Rio Grande do Sul, and Medical Genetics Service, Hospital de Clínicas, Porto Alegre, Brazil

Novel Therapies for Lysosomal Diseases

Prof. Philip F. Giampietro

Professor of Pediatrics, Division Director, Medical Genetics, Child Health Institute of NJ, Rutgers Biomedical and Health Sciences

Genetics of arhrogryposis multiplex congenita

Turkish Session

Panel 5

Hall B

13:30 - 15:30 GMT

17:00 - 19:00 Time in Tehran

Tuesday,
November 3

Prof. Onur Akin

Pediatric Endocrinology, Gulhane Training and Research Hospital, Department of Pediatric Endocrinology, Ankara, Turkey
Management of type 1 Management of type 1 diabetes in childhood

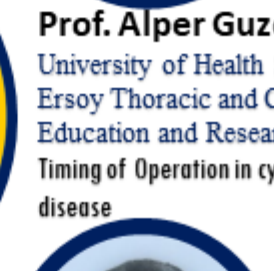

Prof. Nail Guner

Necmettin Erbakan University, Meram Medical School Division of Pediatric Allergy and Immunology, Konya-Turkey
Food Allergy

Prof. Fuat Emre Canpolat

Associate Professor in Neonatology, University of Health Sciences, Ankara City Hospital, Department of Neonatology
Neuroimaging of preterm and term infants in neonatologists' perspective

Prof. Alper Guzeltas

University of Health Sciences, Istanbul Mehmet Akif Ersoy Thoracic and Cardiovascular Surgery Education and Research Hospital, Istanbul, Turkey
Timing of Operation in cyanotic and acyanotic Congenital heart disease

Infectious Diseases Panel 6

Hall B

15:45 - 17:45 GMT

19:15 - 21:15 Time in Tehran

Tuesday,
November 3

Prof. Arash Ghodousi

IRCCS San Raffaele Scientific Institute
Whole genome sequencing for infectious disease
diagnosis

Prof. Jean-Laurent Casanova

St. Giles Laboratory of Human Genetics of
Infectious Diseases, Rockefeller Branch, The
Rockefeller University, New York
Severe COVID-19 in the young and healthy: monogenic
inborn errors of immunity?

Prof. Olaf Neth

Head of the Infectious Diseases,
Rheumatology and Immunodeficiency
Section, Virgen del Rocio University
Children's Hospital, Seville, Italy
Recurrent fever in a child

Day Three

Wednesday,
November 4, 2020

Panel 7: Gastroenterology

Panel 8: Intensive Care

Panel 9: Allergy & Immunology

Panel 10: Nephrology

Gastroenterology

Panel 7

Hall A

13:30 - 15:30 GMT

17:00 - 19:00 Time in Tehran

Wednesday,
November 4

Prof. Zrinjka Misak

Paediatric gastroenterologist, Children's Hospital
Zagreb, Croatia
Functional gastrointestinal disorders

Associate Professor of Cardiovascular Medicine at the University of Oxford, UK
Hypertension burden in children

Day Four

Thursday,
November 5, 2020

Panel 11: Neonatology

Panel 12: Cardiology

Panel 13: Ill Child 02

**Panel 14: Rheumatology
& Pulmonology**

Neonatology

Panel 11

Hall A

13:30 - 15:30 GMT

17:00 – 19:00 Time in Tehran

Thursday,
November 5

Prof. Richard Martin

Division of Neonatology, Rainbow Babies and Children's Hospital, Case Western Reserve University, Cleveland, Ohio, USA

Lecture Topic

Prof. Ahmet Celebi

Professor in Pediatrics and Pediatric Cardiology, Head of the Department of the Pediatric Cardiology, Director of Pediatric Cardiac Catheterization Lab Siyami Ersek Hospital, Istanbul/Turkey

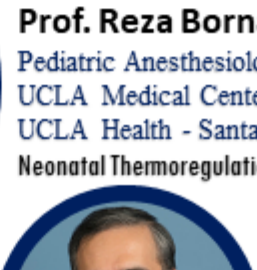

Cardiac interventions in the neonate

Prof. Jay Goldsmith

Tulane University, Department of Pediatrics, New Orleans, Louisiana, USA

Lecture Topic

Prof. Reza Borna

Pediatric Anesthesiology, Ronald Reagan UCLA Medical Center
UCLA Health - Santa Monica Medical Center
Neonatal Thermoregulation

Cardiology Panel 12

Hall B

13:30 - 15:30 GMT

17:00 – 19:00 Time in Tehran

Thursday,
November 5

Prof. Amir Reza Hosseinpour

Chief of Congenital Cardiac Surgery, University Hospitals of Seville, Spain
Surgery for univentricular hearts in the neonatal period

Prof. Sarah Badran

MD, MACM, FSCAI, Co-Director Interventional cardiology, Children's Hospital Los Angeles
Management of aortic stenosis

Prof. Guiti M. Milani

Director of cardiac laboratory, Hôpital Necker-Enfants maladies, Paris, France
Percutaneous closure of patent ductus arteriosus in premature infants

Prof. Israel Valverde

Head of Unit, Paediatric Cardiology, Hospital Virgen del Rocio, Seville, Spain
Virtual reality and 3D printed models for preoperative planning in congenital heart defects

III child 02

Panel 13

Hall A

15:45 - 17:45 GMT

19:15 - 21:15 Time in Tehran
