

## Commitment/Consent Form

I, .....current TUMS student at major (MD /DDS) with student ID number ..... declare that I aware of educational regulation regards to the eligibility of attending to the comprehensive examination (Olum-e-Paye) which is also briefly mentioned here that:

- Eligible Students are those who **passed successfully all Basic Sciences subjects** (one general Subject can be kept for after the exam) and gained **CGPA above 12.** (chapter two, article 11.)
- If scores obtained in some courses passed by the student are not announced by the time of formal examination, the student will participate in the examination under conditions. If the student fails in that course after the announcement of formal examination's score or passes the course but the average does not reach 12, the result of formal examination will be considered null and void.

Due to some circumstances my final mark for below courses have not been uploaded on SIPAD system. Therefore, by knowing the face that my participation on March 2019 comprehensive is conditional, I understand and accept the educational regulation of TUMS that If I fail in that/these course(s) after the announcement of formal examination's score or passes the course but the average does not reach 12, the result of March 2019 Comprehensive examination will be considered null and void.
