

TEHRAN UNIVERSITY OF MEDICAL SCIENCES

B.Sc. in Life Science Leading to M.D./ D.D.S./ B.D.S./Pharm.D./ M.Pharm./M.Sc.

You can start a Doctor of Medicine (M.D.), Doctor of Dental Surgery (D.D.S.), Bachelor of Dental Surgery (B.D.S.), Doctor of Pharmacy (Pharm.D.), Master of Pharmacy (M.Pharm.) or Master of Science (M.Sc.) programs after you complete a Bachelor of Science (B.Sc.) degree in Life Science.

Study Life Science and you may have the option to progress to study M.D., D.D.S., B.D.S., Pharm.D., M.Pharm. or Master of Science programs or completion of your B.Sc. Degree.

There are 3 options after you complete a Bachelor of Science (B.Sc.) degree in Life Science.

Option 1: 10 – 20 % of students who satisfy the academic criteria, achieve a minimum GPA of 70% and pass through the Basic Science Examination are eligible to study Doctor of Medicine (M.D.), Doctor of Dental Surgery (D.D.S.), Bachelor of Dental Surgery (B.D.S.), Doctor of Pharmacy (Pharm.D.), Master of Pharmacy (M.Pharm.) in TUMS.

Please note: These students need to complete the Persian course on their final year of their B.Sc. Degree.

Option 2: Those students who do not achieve the above criteria, and achieve a GPA of 55-70% can study Master of Science M.Sc. in TUMS or we recommend them to study Doctor of Medicine (M.D.) in other Universities in Iran with lower international ranks. To study Doctor of Medicine (M.D.), these students need to complete the Persian course on their final year of their B.Sc. Degree.

Option 3: Those students who do not meet the required criteria for any of the above mentioned options 1 and 2 would be granted a B.Sc. Degree (GPA less than 55%).
