

## **6-12 month Research Fellowship Programs at Immunology, Asthma and Allergy Research Institute, at Tehran University of Medical Sciences**

### **Program Description:**

- 6-12 months of training in clinical, research and laboratory techniques
- Learning about research methods and Medical Journalism and how to publish papers
- Working on a limited individual research project during the study

The first month will help the learners with a broad knowledge in the field including basic sciences, followed by 1 month of laboratory training and 4-10 months of research activities in narrow fields with more in-depth knowledge about a specific subject.

The fellows should attend seminars and journal clubs and are encouraged to present their results in local, national, regional and international meetings and publish their data.

The fellowships are flexible and customizable to the needs of applicants and priorities of the research institute and these programs will empower all interested applicants for a career in allergy and clinical immunology. The applicants can gain experience in adult and pediatric allergy and clinical immunology in a referral university center located in capital of Iran, Tehran.

### **Target Groups:**

Medical Doctors, pediatricians, internists and infectious diseases specialists, also graduates with MSc or BSc in related fields can apply for the programs and the application is open all through the year. The programs start on certain times of the year.

Tehran University of Medical Sciences accredits these fellowships and upon accomplishing all goals and finishing the fellowship, the office of Vice-Chancellor for Global Strategies and International Affairs at Tehran University of Medical Sciences certifies the participants.

### **How to apply**

The applicants are requested to submit TUMS online application form to apply for this position.

Applicants are also requested to send these documents to Immunology, Asthma and Allergy Research Institute:

- Their Curriculum Vitae (CV)
- A letter of intent explaining the reasons they have chosen this field and their field of interest.
- 2 recommendation letters
- Their preference for the language of the course

The language of instruction for this course can be either English or Persian.

TUMS international students will be given the opportunity to use our international dormitories located close to campus in Tehran at student rate.

### **Admission Fees**

2000\$ per year
