Dear Maryam Razzaghy-Azar,

On behalf of the Joint Programme Organising Committee we are pleased to inform you that your abstract entitled:

"Glibenclamide and repaglinide therapy in two infants with diabetic ketoacidosis and mutation in KCNJ11 gene"

has been accepted for **Poster** presentation at the 9th Joint Meeting of Paediatric Endocrinology, September 19-22, 2013, Milan, Italy.

In addition to present your work on a traditional poster, we invite you to **upload your poster** as an electronic poster. The electronic poster will be available for delegates registered for the Joint meeting 2013 meeting up to 12 months after the meeting and will allow further interactions between authors and viewers through emails, after the meeting. To upload your ePoster please follow the link below listed after the instructions for the regular poster.

POSTER DETAILS

The posters will be on display the first three days of the meeting available during the Exhibition opening hours. Your poster board will be marked with the Poster Number indicated in this notification letter. Please note that the first number indicates the assigned poster area where your poster will be displayed (P1, P2 or P3), the second number indicates the assigned day when you have to be present by your poster board (eg. d1 for Thursday 19 September, d2 for Friday 20 September and d3 for Saturday 21 September), and the last is your unique number.

Session name: P3-d2 - Glucose Metabolism 16

Session date: Friday, 20 September 2013

Time to be present by poster board: 13:00 - 14:00

Poster Number: P3-d2-1336

INSTRUCTIONS FOR POSTER PRESENTATION

Your poster board will be marked with the Poster Number indicated in this notification letter.

Posters should be up for display on: Thursday 19 September between 09:45 and 13:30 **Posters must be removed by:** Saturday 21 September 17:00*. **Please note the posters need to be removed due to the exhibition closing on the end of Saturday 21 September.*

When you remove your poster, please make sure to remove all poster-mounting materials from the board. The meeting staff will remove posters not taken down on time and the meeting Organisers cannot ensure any further responsibility for the material. Please note that at 17:00 all remaining posters will be thrown away.

The maximum size of your poster should be **120 cm high x 90 cm wide** (portrait style). Your poster

material should be attached on the surface by material provided by the meeting staff. Give a short and comprehensive review of the basic items of your study. This can be done by dividing your text into several but clearly delineated paragraphs and sections such as Background, Objective and hypotheses, Methods, Results, and Conclusions. Remember that it is easy to start reading a paragraph of six lines and that most people avoid one with 30! Your poster text should be enlarged so that it can be read at a distance of about one meter.

Drawings, diagrams and photos are extremely helpful and often necessary to display results and conclusions. Make sure that your illustrations are easy to understand; do not overload any chart or drawing with information.

IMPORTANT: Please note that Joint meeting policies do not allow displaying pharmaceutical company logos anywhere on your poster.

Disclosure Statement

The disclosure statement submitted together with the abstract will be published online at the Meeting website, and you shall include the statement on your poster.
