ESPID does not use traditional poster boards. Instead posters are available to delegates through many large electronic screens at stations in the congress centre that are displayed throughout the Meeting. Any E-Poster can be viewed on any screen, at any time. In addition, all the E-Posters will be accessible to all delegates via the Meeting app during and after the Meeting. Presenters will have the option of adding an audio or video recording to their E-Poster. We will also make all these digital materials available on the website after the Meeting, subject to your consent. Accordingly you will not need to bring a poster with you, or to print one in Malmö. It is however essential for you to prepare your E-Poster and upload it.

*Instructions on how to prepare your E-Poster will be sent in due course.

E-Poster Viewing abstracts will have no specific presentation date and time. The presenter may stand by the E-Poster Viewing stations in order to present their E-Poster during breaks.
