Dear Maryam Moeeni,

The review process for the European Population Conference 2014 in Budapest is now complete. We received well over a thousand submissions for this year's conference. Following the reviews by the conveners, the International Organizing Committee has made final decisions about all sessions. EPC2014 will have about 120 simultaneous sessions as well as 3 Poster Sessions.

We are pleased to inform you that your paper "Analysis of economic determinants of fertility in Iran: a multilevel approach" has been accepted for presentation in session 103 "Prospects of fertility determinants worldwide".

You can still edit your paper title and short abstract until 1 May 2014 on the conference website <http://epc2014.princeton.edu>. Please also check that names and affiliations are correctly recorded. This information will be included in the Book of Abstracts. The preliminary program for EPC 2014 will soon be posted on the program website.

Information on the venue of the conference, registration, travel and accommodation and much more can be found at <http://epc2014.hu/>.

Important! Please note that all presenters at EPC 2014 are expected to be EAPS members. Also note that all presenters should register for the conference before 15 April 2014. Presenters who fail to register by this date will be removed from the program and their slot in the program will be offered to a participant on the waiting list. Due to the very large number of submissions this rule will be strictly enforced, so please make sure that you register on time!

We are eagerly looking forward to another exciting European Population Conference and to welcoming you in Budapest!

On behalf of the International Organizing Committee as well as the local organizers and our Hungarian hosts,

Nico van Nimwegen
Executive Director
European Association for Population Studies (EAPS)
