2018, 23rd to 28th June 2018

2018 Joint IAOP - AAOMP Me<https://aaompmeeting2018.exordo.com>

Date: 5/8/2018

Dear Pouyan:

As we previously reported, the Scientific Program Committee announce that your abstract submission titled: **Anti-angiogen Aflibercept and Bevacizumab in Primary Oral Squamous C Cells**, has been accepted as a **POSTER** presentation. While we originally requested an oral presentation, due to the number submissions, as well as time and logistical limitations, it was necessary to change the number of submissions requesting oral presentation into the poster presentation. Your understanding of the need for this change is appreciated.

The poster session is scheduled for 4:30 pm -6:30 pm on Monday **and** Tuesday, June 26, 2018. Your poster will be on display for both days. You will be required to be physically in attendance with your poster. Your poster will be published in the final program brochure, available online at the meeting. Consult www.aaompmeeting.org for more information available.

Below is the information you will need for preparing your poster
Maximum poster width: 47 inches (119 cm) Maximum poster length: 106 cm (106 cm) The easels on which the posters will be displayed measure
