Training Certificate for Dr. Masoud Mohammadpour

Dr. Masoud Mohammadpour has completed his fellowship training in our intensive care department from 15th July 2014 to 15th July 2015 at the Dr. von Hauner Children's Hospital, Ludwig Maximilians University München.

He has visited several divisions to get insight into the management of complex patients.

From 15th July until 15th October he worked in our infant ICU, a specialized and intermediate intensive care unit for infants aged between 1-12 months.

From 15th October until 15th December he worked in our pediatric ICU, a unit especially planned for medical and surgical problems for children older than one year with a wide variety of diseases from drug intoxication or toxicity to complicated neurosurgical and burn problems.

From Dec 15th until Jan 15th he worked in our Respiratory department and then in our Cardiac ICU from Jan 15th to March 1st, in which he took part in the management of complicated CF Patients, Post Lung transplantation problem management, Home mechanical ventilation, management of complicated congenital heart diseases, post cardiac transplantation problems, complicated heart failure and finally use of Left ventricular assist drive (LVAD).

Following our letters dated 10/23/2014 and 03/11/2015 it is to certify that Dr. Mohammadpour has continued his presence in our intensive care facilities on a full day schedule in the following way:

From March 1st, 2015 until May 15th 2015 he has took part in the training program at our Stem cell Transplantation department and BMT-ICU, a specialized intensive care

Direktor der Klinik: Prof. Dr. Christoph Klein

Das Klinikum der Universität München ist eine Anstalt des Öffentlichen Rechts

Vorstand: Ärztlicher Direktor: Prof. Dr. Karl-Walter Jauch (Vorsitz), Kaufmännischer Direktor: Gerd Koslowski
Pflegedirektorin: Helle Dokken, Vertreter der Medizinischen Fakultät: Prof. Dr. Dr. h.c. Maximilian Reiser (Dekan)

unit for children undergoing Stem cell Transplantation. There he got experienced in our modern and new Transplant programs and also special problems of these patients such as GVHD, mixed chimerism, and the manner we follow them up in our ambulatory clinic after their discharge such as DLI, BMA, and etc.

From mid May he has attended our premature and neonatal intensive care unit in our Women's Hospital and gained more experience in early management and resuscitation in emergency delivery room and emergency caesarean section department and also our special NIV and mechanical ventilation, fluid and electrolyte, infection control, and our parenteral nutrition programs, which continued until July 15th, 2015.

It was a great pleasure to have Dr. Mohammadpour with us. His inquisitive mind, his broad clinical experience, his dedication towards patients and their families made him a highly valuable member of the team.

I give Dr. M my highest recommendation and wish him all the best for his future career!
