Subject: Letter of notification European Congress of Epidemiology 2015

Maastricht, 10 April 2015

Subject: European Congress of Epidemiology, acceptance of abstract # **811**

Dear Davood Khalili (the corresponding author)

We are delighted to inform you that your submitted abstract entitled:

Risk of coronary heart events in symptomatic and asymptomatic individuals: 10 years follow-up in Tehran Lipid and Glucose Study (TLGS)

has been selected for a **poster presentation** at the European Congress of Epidemiology 2015 in Maastricht, the Netherlands (25-27th June 2015). This selection is based on points assigned to each abstract by two independent reviewers and the scientific committee, with special attention for methodology and clarity.

Poster presentations are accepted to be displayed at the congress in the poster area during Poster session A (Friday 26 June) or Poster session B (Saturday 27 June). Besides, poster viewing is possible during lunch and during all (coffee) breaks.

Authors will also have the opportunity to present their work to delegates. During Poster session A and B, the presenter will stand next to their poster while "poster moderators" lead small groups of delegates around the poster area and facilitate questions and discussion from delegates (see Final Programme for location, date and time). Please note that the abstracts in the poster sessions will NOT be presented with PowerPoint presentation slides. However, please prepare a 1-minute talk to present to delegates when they pass in small groups.

IMPORTANT NOTES:

- Your poster will be indicated by an assigned number. This information together with the assigned session and further details will be communicated to you within three weeks.

- Your abstract will be published in the European Journal of Epidemiology as a supplement.

REGISTRATION:

If you have not already registered for the European Congress of Epidemiology please do so by following this link: <http://www.healthyliving2015.nl/registration>.

If you have any queries or need further information about the conference facilities, accommodation and registrations, please contact the conference secretariat at info@healthyliving2015.nl.

Stay informed and visit our website www.healthyliving2015.nl regularly.

Once again, congratulations!

We look forward to meeting you in Maastricht.

Yours sincerely,

Professor Matty P. Weijnenberg
Chair Scientific Committee

Professor Martin H. Prins
Chair Organising Committee
