

Volume No 31 - Supplement 1 - 2016

Towards Future Regenerative Therapies TERMIS-EU 2016 Conference, Uppsala, Sweden

Oral Abstracts

[Page 208](#): AM Kajbafzadeh, R Abbasioun, N Sabetkish, **S Sabetkish**

Future prospects for human tissue engineered urethra transplantation: decellularization and recellularization-based urethra regeneration

[Page 209](#): C Lo Sicco, D Reverberi, R Cancedda, R Tasso

Characterization of bone marrow derived-circulating healing (ch) cells endowed with healing capacity

[Page 210](#): E Scarpa, AA Janeczek, AR Hoad, ROC Oreffo, TA Newman, ND Evans

Wnt pathway activating polymeric nanoparticles for fracture localisation

[Page 211](#): S Nürnberger, X Monforte Vila, D Hanetseder, B Rieder, S Wolbank, H Redl, A Teuschl

New scaffold concept for cartilage regeneration

[Page 212](#): JI Dawson, G Hulsart-Billström, S Hofmann, R Müller, MJ Stoddart, M Alini, H Redl, A El Haj, R Brown, V Salih, J Hilborn, S Larsson, ROC Oreffo

Correlation between *in vitro* and *in vivo* assessments of biomaterials for bone-regeneration – a multi centre study

[Page 213](#): OP Varghese, H Yan, N Laxman, OP Oommen

Overcoming endosomal escape: addressing the key challenge of nucleic acid delivery
