

18th International Conference on Behçet's Disease

Date : June 28, 2018

Conference : 18th International Conference on Behçet's Disease, 13 – 15th September 2018

Dear Professor Shahram,

Thank you for the submission of your abstract(s) for the **18th International Conference on Behçet's Disease**, which will take place on 13th – 15th September 2018 at Congress Centre De Doelen in Rotterdam, The Netherlands.

The ICBD 2018 reviewing committee has reviewed and scored all the submitted abstracts. The scientific committee has assigned Oral Presentations (10 minutes including discussion) and e-Poster Presentations to the selected abstracts.

We are pleased to inform you that (one of) your abstract(s) has been selected for:

Presentation: *Oral presentation (10 minutes including discussions) and e-Poster Presentation*

Abstract nr.: 129

Abstract title: Pediatric Behçets Disease; Report of 204 cases from the Iran registry of Behçet's disease

Please let us know by return when you are not able to present your abstract at the conference in order to avoid last minute cancellations in the programme.

The complete programme will be available on the [website](#) of the ICBD 2018 Congress.

Registration

Please note that the presenting author will be required to register for the congress in order to ensure the abstract(s) is/are included in the final program. Deadline for registration is **13th July 2018**. We would like to point out that you are able to [register online](#) for the **Early bird registration fee until 13th July 2018**.

Oral Presentation

Above mentioned abstract has been selected for an oral presentation. The time for an oral presentation is 8 minutes and 2 minutes discussion (total of 10 minutes).

There will be a strict time management, so make sure your presentation is no longer than the assigned time. Also, please let the session chair know you are present at the session start and take a seat on the front row. This will lead to less time needed for change of presenters.

Please note that besides the oral presentation you are also requested to present the abstract as an e-poster presentation (see information on the next page).

E-Poster Presentations

In an effort to highlight the research presented at the meeting, abstracts selected for a poster presentation are requested to prepare an e-poster. This e-poster can be viewed at the large LCD television screens at the congress venue throughout the meeting (13-15 Sept 2018). E-posters are a digital replacement for the traditional paper posters. *Please note there will be no hard copy (printed or paper) posters at the ICBD 2018.*

Your e-poster will be uploaded to the screens prior to the meeting. The system will allow you to move around and zoom in on any section, just like a large tablet.

Presentation and discussions

Abstracts that are selected as an e-Poster Presentation, will be displayed during a special designated scheduled session. During this session you will be expected to present the results of your research with attendees and answer their questions. You have max 3 minutes to present your abstract followed by 3 minutes questions. Every session has a chair who will lead the presentations and discussions.

Preparation of e-Posters

Each e-Poster must be submitted as a single page PDF document with a resolution of 1080 pixels width x 1920 pixels height in portrait orientation. Pictures should have at least a resolution of 1500x1500 pixels. More instructions and information about the e-poster will be sent in August.

Time slots and practical information

In August you will receive more information about the date, session, time and how to upload your e-poster.

We look forward to welcome you in Rotterdam!

Yours sincerely

Mrs. Bernice Beukenkamp
Senior Conference Manager
