Date: Monday, May 30, 2016 8:46 PM

Dear Colleague,

I am pleased to inform you that your abstract "Risk factors affecting wound complications and recurrence after excision of sacrococcygeal pilonidal disease" (reference 0129) has been accepted for poster presentation at ESCP 2016.

You can see the program now at this link: <http://escp.conference-services.net/programme.asp?conferenceID=4894&language=en-uk>

POSTER BOARD DETAILS:

Poster board details will be available shortly on the ESCP website, please visit www.escp.eu.com/escp-2016. Double-sided tape will be supplied to you when you put up your poster. PLEASE NOTE that you may NOT use your own materials to fix your poster.

REGISTRATION FOR THE CONFERENCE:

Main Authors are eligible for the "early" registration rates until 31 August, however we highly recommend that you register online before the early rate deadline of 24 June. From 25 June you will need a code from us to access the lower rate.

You can benefit from much lower registration rates if you are a member of ESCP. You can join ESCP online at www.escp.eu.com and will then automatically receive a coupon code to access member conference rates on the (separate) conference registration system. Please visit www.escp.eu.com/escp-2016 to register for the meeting.

Accommodation for the conference should also be booked as early as possible. Full details are available on the ESCP website.

Congratulations on behalf of the Programme Committee, we look forward to seeing you in Milan!

With best wishes,

ESCP Secretariat
