Dear Ms. Marzieh Salimi,

On behalf of the Program Committee, it is my pleasure to extend to you a formal invitation to present an oral presentation of your abstract "*Magnetic hyperthermia and MR imaging using G4 PAMAM dendrimer coated Fe₃O₄ nanoparticles*" at the 34th Annual meeting of the Society for Thermal Medicine to be held at the CasaMagna Marriott Cancun Resort, Cancun, Mexico, April 29 – May 2, 2017.

Your presentation is scheduled for the following session/date/time:

- Nanotechnology Session II: Nanothermometry
- Sunday, April 30th, 2:00pm-3:30pm

The 2017 annual meeting is shaping up to be an outstanding line-up of world-class speakers addressing important topics in the various fields of thermal medicine. Sessions will be disease-oriented, to attract participation by researchers and clinicians from around the world. Other sessions will focus on the latest developments in technology and biology, with an emphasis on breakthroughs in nanotechnology that promise to advance thermal medicine. We view *thermal medicine* as a continuum which ranges from cryotherapy to thermal ablation. The program will reflect this perspective.

We hope you will be able to accept this invitation and we look forward to your participation.

Sincerely,

A handwritten signature in black ink, appearing to read "Robert Ivkov".

Robert Ivkov, Ph.D.
