

- 1405 Different sensitizations in the lombardia region (Italy)
Davide Paolo Cairmi, CHRU de Montpellier, Allergy Unit and Cystic Fibrosis center, France

Thematic Poster Session (TPS 56) – Autoimmunity

Poster Exhibition

Chair: Cristiana Stellato, Italy

- 1406 Increased risk of developing depressive and anxiety disorders in patients with systemic lupus erythematosus: a matched case-control study
Kun Lin Lu, Department of Pediatrics, Chang Gung Memorial Hospital and Chang Gung University College of Medicine, Taiwan
- 1407 The role of dysregulation of the immune system in the formation of immunodeficiencies and autoimmune disorders
L. P. Sizyagina, Rostov State Medical University, Russia
- 1408 Sputum anti-neutrophil cytoplasmic antibodies in eosinophilic granulomatosis and polyangiitis patients with respiratory involvement
Manali Mukherjee, McMaster University, Canada
- 1409 Role of 18F-FDG PET/CT in the assessment of disease activity and progression in takayasu's arteritis
Maja Stojanovic, Clinic of Allergy and Immunology, Clinical Center of Serbia, Serbia
- 1410 Vasculitis in rheumatoid arthritis /RA/
Plamen Hristov Yakovliev, Medical college of Thracian university, Bulgaria
- 1411 Success of rituximab in a case of coronary arteritis and IgG4 related aortitis.
Letizia Barbieri, Department of Translational Medical Sciences, University of Naples Federico II, Italy

- 1413 Circulating ACPA-specific immune complexes in RA patients promote proliferation and cytokine secretion from fibroblast-like synoviocytes
Xiao-Jun Li, Institute of Clinical Laboratory Science, Jinling Hospital, School of Medicine, Nanjing University, Nanjing 210002, China, China
- 1414 The prevalence of autoantibodies in patients with chronic hepatitis B and C.
Sükran Köse, Izmir Tepecik Training and Research Hospital, Turkey
- 1415 Clinical significance of circulating serum XIST in patients with rheumatoid arthritis
Li-Ping Zhang, Department of Laboratory Science, Nanjing LISHUI District Hospital, China
- 1416 Investigation of IL-17 producing CD26-/low memory treg cells in patients with psoriasis
Behnaz Esmaeili, Tehran University of Medical sciences, Iran
- 1417 Recalcitrant cutaneous sarcoidosis - paradoxical worsening with anti-TNF α therapy despite a dramatic improvement in pulmonary function
Miriam Fitzgerald, Chelsea & Westminster Hospital, United Kingdom
- 1418 Overall disability sum score (ODSS) for clinical assessment of neurological involvement in eosinophilic granulomatosis with polyangiitis.
