

Master of Science in Audiology

➤ Credits

Total number of required credits: 32

Theoretical credits: 21

Practical credits: 1

Clinical credits: 3

Non-core credits: 3

Thesis: 4

Total number of Non-core credits: 10

Background credits: 3

Core Courses

These are the compulsory courses the students need to register:

- 1. Biostatistics** (Theoretical: 2 credits)
- 2. Research Methods** (Theoretical: 1 credit and practical: 1 credit)
- 3. Neuroscience with special emphasis on Auditory and Balance Systems** (Theoretical: 3 credits)
- 4. Speech processing and perception** (Theoretical: 2 credits)
- 5. Psycholinguistics** (Theoretical: 2 credits)
- 6. Vestibular System Evaluation Methods and Rehabilitation** (Theoretical: 3 credits)
- 7. Aural Rehabilitation in Specific Patients** (Theoretical: 3 credits)
- 8. Auditory Electrophysiological Tests** (Theoretical: 3 credits)
- 9. Clinical Practicum I (Vestibular System Evaluation and Rehabilitation)** (1 credit)
- 10. Clinical Practicum II (Aural Rehabilitation in Specific Patients)** (1 credit)
- 11. Clinical Practicum III (Auditory Electrophysiological Tests)** (1 credit)
- 12. Seminars** (Theoretical: 2 credits)
- 13. Thesis** (4 credits)

Non-Core Courses

The student has the flexibility of selecting the elective courses from the under mentioned courses offered:

1. Advanced Selection, Evaluation and Fitting of Assistive Listening Devices (Theoretical: 1 credit and practical: 1 credit)

2. Improvement of Acoustic Spaces (Theoretical: 2 credits)

3. Advanced Psychoacoustics (Theoretical: 1 credit)

4. Hearing Protection (Theoretical: 2 credits)

5. Aural Rehabilitation of younger than 3 years old hearing- impaired children (Theoretical: 2 credits)

6. Vestibular Rehabilitation (Theoretical: 1 credit)
