

08.00 – 09.30

**Free Paper Session**

**Photoablation Outcomes II**

**Room 1**

**Chairperson:** D. Epstein *SWITZERLAND*

**Moderator:** A. Doga *RUSSIA*

- 08.00 M. Elghobaier, A. Monir, I. Awny *EGYPT*  
LASEK for extreme myopia: could this technique be effective and safe for patients in upper Egypt?
- 08.06 N. Nassiri, K. Sheibani, S. Safi, N. Nassiri *IRAN*  
Tetracaine-assisted debridement in PRK with intraoperative mitomycin C
- 08.12 A. Rashed *EGYPT*  
Role of mitomycin C alone and combined with vitamin C in preventing corneal haze post PRK for myopic correction
- 08.18 L. Coelho, R. Sieiro, J. Lyra *BRAZIL*  
Comparison of mitomycin C 0,02% and 0,002% efficacy in preventing haze after photorefractive keratectomy
- 08.24 P. Bhandary, D. Shetty, N. Pahuja, C. Sharma, A. Ghosh *INDIA*  
Analysis of cellular factors driving predisposition for corneal haze in patients undergoing photorefractive keratectomy
- 08.30 S. Mohammadi, M. Mohebbi, K. Asna-Ashari, A. Rafat-Nedjad, M. Kasiri, S. Heidari-Keshel *IRAN*  
Corneal sub-basal nerve plexus density and post-PRK pain
- 08.36 Discussion
- 08.48 A. Khalilian *IRAN*  
Preoperative topical diclofenac and ketorolac in prevention of pain and discomfort following photo-refractive keratectomy: a randomised double-masked placebo controlled clinical trial
- 08.54 M. Cernak, V. Siska, E. Siskova, A. Cernak, T. Durcova *SLOVAKIA*  
Mixed astigmatism correction results using Schwind Amaris 1050Hz platform and LASEK: 6 month results
- 09.00 K. Termote, S. Holland, D. Lin *CANADA*  
PRK might be better for extreme myopia than LASIK
- 09.06 A. Doga, I. Mushkova, N. Sobolev, A. Karimova, I. Zakharova *RUSSIA*  
Visual outcomes of FemtoLASIK for correction of residual refractive error after optical reconstructive surgery with iris-lens diaphragm implantation
- 09.12 Discussion
- 09.30 End of session

08.00 – 09.30

**Free Paper Session**

**Endophthalmitis/Ocular Infections**

**Room 8**

**Chairperson:** U. Stenevi *SWEDEN*

**Moderators:** P. Barry *IRELAND*  
A. Grzybowski *POLAND*

- 08.00 A. Grzybowski, M. Gaca-Wysocka *POLAND*  
Microbiology of conjunctiva sac in cataract surgery patients
- 08.06 Y. Huang, I. Xie *CHINA*  
Identification of microbial communities in healthy adult human conjunctiva using high throughput sequencing technology
- 08.12 Discussion
- 08.24 P. Biswas, A. Paul, D. Unnikrishnan, P. Biswas, K. Chowdhury, S. Jana, N. Chandak *INDIA*  
Bacterial adhesion depends on the surface roughness of intraocular lens
- 08.30 S. Lee, E. Cho, C. Cho *SOUTH KOREA*  
Gram-negative bacterial keratitis: a 15 year clinical and microbiological review in a university hospital in South Korea
- 08.36 I. Westborg, S. Albrecht, G. Bjärnhall, N. Karlsson *SWEDEN*  
Update on endophthalmitis after intravitreal injections
- 08.42 Discussion
- 08.48 T. Althomali *SAUDI ARABIA*  
Outbreak of toxic anterior segment syndrome following (I-Visc®1.4%) viscoelastic for anterior segment surgery
- 08.54 M. Aznabaev, G. Gaysina, G. Azamatova *RUSSIA*  
Prevention of infection complications in ophthalmic surgery by means of ophthalmic medicinal film with moxifloxacin
- 09.00 C. Garcia-Saenz, Y. Andres-Alba, A. Arias-Puente, G. Rodriguez-Caravaca *SPAIN*  
Endophthalmitis following phacoemulsification in 22,000 procedures: clinics, visual outcome and microbiological spectrum
- 09.06 A. Lotfy *EGYPT*  
Combined pars plana vitrectomy and silicone oil injection for the treatment of acute postoperative infectious endophthalmitis
- 09.12 Discussion
- 09.24 M. Prodhan *BANGLADESH*  
Comparison of the effects of Stich conjunctival auto graft with natural conjunctival autograft transplant (N-CAT) for treatment of primary pterygium
- 09.30 End of session
