WELCOME MESSAGE

After more than one year from the beginning of COVID19 pandemic, all people around the world are suffering from it, either directly or indirectly. In such a complicated situation, School of Dentistry of Tehran University of Medical Sciences (TUMS) has planned not only to keep the students and faculties safe but also to follow its former long-term projects. One of our long-term plans has been internationalization in both education and research and after more than 190 hours of online webinars and courses, we are delighted to hold a joint 2-day online program entitled *“Advancements in Treatment Approaches: Focusing on*

Emergency Cases” with School of Dentistry of Yeditepe University. I would like to express my appreciation to my colleagues in Yeditepe University, especially Prof. Dr. Bahar EREN KURU, for such a great contribution and I would like to invite all under/ post graduate students and dentists to attend this brilliant course.

With warm regards,
Amirreza Rokn
Dean, School of Dentistry
Tehran University of Medical Sciences

WELCOME MESSAGE

On behalf of Yeditepe University Faculty of Dentistry, I would like to express our sincere pleasure to collaborate with Tehran University of Medical Sciences. We all wish this collaborative online organization will be mutually beneficial and fruitful scientific feast that we enjoy the most.

Prof. Dr. Bahar EREN KURU
Dean, Faculty of Dentistry
Yeditepe University

Prof. Dr. Bahar EREN KURU
Dean, Faculty of Dentistry
Yeditepe University

TEHRAN UNIVERSITY OF MEDICAL SCIENCES

The first modern center of medical training in Iran was founded in 1851 as a part of the Institute of Higher Education (Dar-ol-Fonoon). The School of Medicine was established as a part of University of Tehran in 1934. After the Islamic Revolution, medical schools and departments associated with medical fields were separated from the Ministry of Higher Education and were taken under the administration of the Ministry of Health, Treatment, and Medical Education. Since 1986, all those schools of University of Tehran which specialize in medical fields have carried on their activities independently as Tehran University of Medical Sciences and Health Services.

As the oldest and most well-known medical center in Iran, nationally as well as internationally, TUMS has the largest schools of medicine, dentistry, pharmacy, rehabilitation, allied medical sciences, public health, advanced technologies in medicine, nutritional sciences and dietetics, and nursing and midwifery in Iran as well as a virtual school. Over a hundred specialized research centers are under the immediate supervision of this university.

TUMS has many teaching hospitals: Imam Khomeini, Sina, Shariati, Vali-e Asr, Amir Alam, Ziayian, and Baharloo are general and referral hospitals; Children's Medical Center and Bahrami Hospital are TUMS pediatric centers; Farabi Hospital is a special center for ophthalmology; Razi Hospital is devoted to dermatology; Roozbeh Hospital is a center for psychiatry; Arash and Moheb-e Yas are special hospitals for gynecology, obstetrics and infertility; Tehran Heart Center is a cardiology center; and Cancer Institute, as the name suggests, specializes in cutting-edge cancer research and treatment.

These factors, along with the abilities and drive of its specialists, have made TUMS an important center with a notable reputation in the region and Central Asia.

The first modern center of medical training in Iran was founded in 1851. It was a part of the Institute of Higher Education (Dar-Ol-Fonoon). When Dar-Ol-Fonoon was founded in 1894, Dentistry was included as a sub-branch of Medicine at the same school. When University of Tehran was established in 1934, Dentistry was separated as an independent school. In 1985, medical schools and departments associated with medical fields were separated from the Ministry of Higher Education and were administered by the Ministry of Higher Education.

Since 1986, all those schools affiliated to University of Tehran in medical fields have carried on their activities independently under the title of "*Tehran University of Medical Sciences*" (TUMS). TUMS is the oldest and most well-known medical center, nationally as well as internationally.

TUMS School of Dentistry

TUMS School of Dentistry is the foremost dental center in Iran with an international reputation of scholarly activities in both clinical and biological sciences. According to the national ranking, TUMS School of Dentistry is the first School out of 45 dental schools of the country and according to the recent Shanghai ranking, TUMS School of Dentistry is placed in the range of 151-200 in the world and has the first position among dental schools in the country.

YEDITEPE UNIVERSITY

Having been founded in 1996 by Istanbul Egitim ve Kultur Vakfi (ISTEK – Istanbul Educational and Cultural Foundation), Yeditepe University, in line with Ataturk's principles, with its pioneering and distinguished academic and administrative staff, aims to raise young people that are modern, inquisitive, equipped with all the qualifications that are needed in business world and all the technological skills necessary, well-versed in different cultures and personally well developed. With its contemporary academic programs and applications, our University offers an education that is necessary for people of the age of information.

Yeditepe University offers an education compatible with the expectations of the information age and carries out its academic activities at 13 Faculties namely Dentistry, Pharmacy, Arts and Sciences, Fine Arts, Law, Economics and Administrative Sciences, Communication, Architecture, Engineering, Health Sciences, Medical and Commercial Sciences, 2 Schools and 1 Vocational School entailing 71 undergraduate and 4 associate degree programs. Also, postgraduate education is conducted in 87 Master's Degree programs and 43 Doctoral Degree programs within the body of graduate schools of Ataturk's Principles and Revolution History,

Educational Sciences, Health Sciences, Natural Applied Sciences, and Social Sciences.

Yeditepe University, of which medium of instruction is English, prepares the youth from all over Turkey for their future. Thanks to over 700 collaborations with other leading universities around the world, primarily in Europe, U.S.A., Canada, Russia, South America and Far East, Yeditepe University pioneers the higher education in Turkey. Being the university with the largest number of students with Erasmus and other exchange programs in Turkey, Yeditepe takes another step forward in this direction with its Academic Collaboration Agreement with Houston Methodist Global. Also, our "University – Industry Collaboration", which we firmly believe is of utmost importance for our students and we have been carrying out successfully, is also another one of our priorities.

Yeditepe University Faculty of Dentistry is the first Dental Faculty founded under a Foundation University in Turkey. The students benefit from clinics and laboratories equipped with state-of-the-art equipment compatible with contemporary medicine and dentistry and have the opportunity to watch operations undertaken in the operating rooms via intraoral and extra-oral cameras simultaneously. Diagnosis and treatment procedures based on European, ADA and Joint Commission International accreditation (JCI) guidelines are undertaken in computer-equipped units, and latest dental technology is used in every stage of education.

Faculty of Dentistry, received BS-EN-ISO 9001 quality assurance system certificate in 2001, as well as JCI accreditation for patient care and certificates both for faculty and undergraduate training clinics in 2009; European Federation of Periodontology (EFP) accreditation for graduate program of Periodontology in 2005.

YU School of Dentistry

Furthermore, the audit of Association for Dental Education in Europe (ADEE) was completed successfully in 2008.

The educational preliminary accreditation consultation visit (PAVC) of Commission of Dental Accreditation (CODA) in 2014 being on the final step for full CODA accreditation.

All these accreditations and experienced academic staff together with contemporary facilities of the hospital creates a beneficial and high quality learning, teaching and research environment.

YEDİTEPE UNIVERSITY AND TEHRAN UNIVERSITY OF MEDICAL SCIENCES PRESENT

Course Introduction

As it was our plan to hold international courses every year at TUMS School of Dentistry, we have decided to follow our plan this year as well, but with a whole new structure. This year, due to the COVID-19 crisis, we have to continue our virtual programs. This year, we are planning a 2-day joint program entitled “Advancements in Treatment Approaches: Focusing on Emergency Cases” between Yeditepe University (YU), Turkey and Tehran University of Medical Sciences (TUMS), Iran.

Prominent professors from TUMS and YU will share their knowledge and experiences by case presentation and discussion, focusing on emergency events.

There are going to be lectures of Prosthodontics, Restorative Dentistry, Oral and Maxillofacial Surgery, Periodontics, Pedodontics, Orthodontics and Endodontics. The program will be held on the ZOOM platform. We are also going to record all lectures so that they will be available for further referrals. The aim of this course is to connect the students worldwide, with the goals of education and to provide the applicants with the top-notch knowledge available in the field of dentistry, so that they acquire new visions and learn something besides the routine classes.

COURSE INTRODUCTION

Length and Date:

SEP. 18th

12:30-17:30 (IRST)
11:00-16:00 (TRT)
08:00-13:00 (GMT)

SEP. 19th

12:30-17:30 (IRST)
11:00-16:00 (TRT)
08:00-13:00 (GMT)

Why join this course? What do you learn?

Emergency may occur during any dental practice; therefore, it is advised to be prepared enough. In this short course, the participants will get acquainted with some emergency cases and related treatments in dental practice.

By attending this course, the applicants learn how to manage emergency cases in Endodontics, Restorative dentistry/ prosthodontics, Pedodontics/ Orthodontics, and OMF Surgery/ Periodontics departments.

COURSE INTRODUCTION

Who can apply?

Undergraduate/ postgraduate students, Dentists, Specialists.

Language of Course

English

Programs on This Course

- Prosthodontics/ Restorative Dentistry
- Surgery/ Periodontics
- Pedodontics/ Orthodontics
- Endodontics

Tuition Fee

Free

Certificate

The course will be held in 2 days (10 hours). In order to receive the CERTIFICATE, you are required to register and be present in at least 70% of the ONLINE course. In case of any certificate enquiries, you may contact Educational Office via online_edu@tums.ac.ir.
