

University Name:	University of College Cork
University Logo:	
Country:	Ireland
Establishment date:	1845
About University & History:	<p>UCC was established in 1845 as one of three Queen's Colleges - at Cork, Galway and Belfast. These new colleges were established in the reign of Queen Victoria, and named after her. Queen's College, Cork (QCC) was established to provide access to higher education in the Irish province of Munster. Cork was chosen for the new college due to its place at the centre of transatlantic trade at the time and the presence of existing educational initiatives such as the Royal Cork Institution and a number of private medical schools. Since 1908, UCC has grown - from 115 students to over 20,000, from one building to dozens, from less than 20 staff to more than 1,600 today. Since 1997, we have become a university in our own right within the NUI, but we retain the UCC name as part of our heritage of learning since 1845.</p>
Research Lines:	<p>UCC collaborates within, nationally and internationally on projects in the thematic areas of (Medicine):</p> <ul style="list-style-type: none"> Entry and Selection for Medicine Clinical Learning Environments Professional Identity Formation Patient Safety Curricular Development and Innovation
