Collaboration Agreement

This agreement is entered into on Nov. 1st, 2017, between the Institute of Pharmacy and Molecular Biotechnology, Dept. Pharmaceutics and Biopharmacy of Ruprecht-Karls University, Heidelberg, Germany, represented by Prof. Dr. Gert Fricker and the School of Pharmacy, Dept. of Pharmaceutics, Tehran University of Medical Sciences, Tehran, Iran, represented by Prof. Dr. Ismael Haririan.

Both parties agree to collaborate in the scientific field of biopharmaceutics and drug development, particularly in the area of nanoparticles, drug targeting and pharmacokinetics. Joint projects will be defined and actively be elaborated. It is agreed to and understood by the parties that the materials provided by each to each shall be held in confidence until such materials are accepted for publication or other exploitation. Each partner agrees to keep the other fully apprised of all matters regarding the exploitation of the work including offers, negotiations and communications from interested third parties and each partner will contribute to the efficient flow of information and access to relevant data of joint projects.
